# 1. Accessing Scope Trader

To start using Scope Trader, you'll need to log into your client area. You can then access Scope Trader from the options below:

- Click on 'Scope Trader' from the side menu.
- On your trading accounts table, click on each of the available accounts and from the drop-down menu, choose 'Scope Trader.'
- Alternatively, you can log in using your MT5 credentials via [trade.scopemarkets.com](https://trade.scopemarkets.com) and then follow the steps below

1

Choose an account type to trade on;  
this will be **Live** or **Demo**

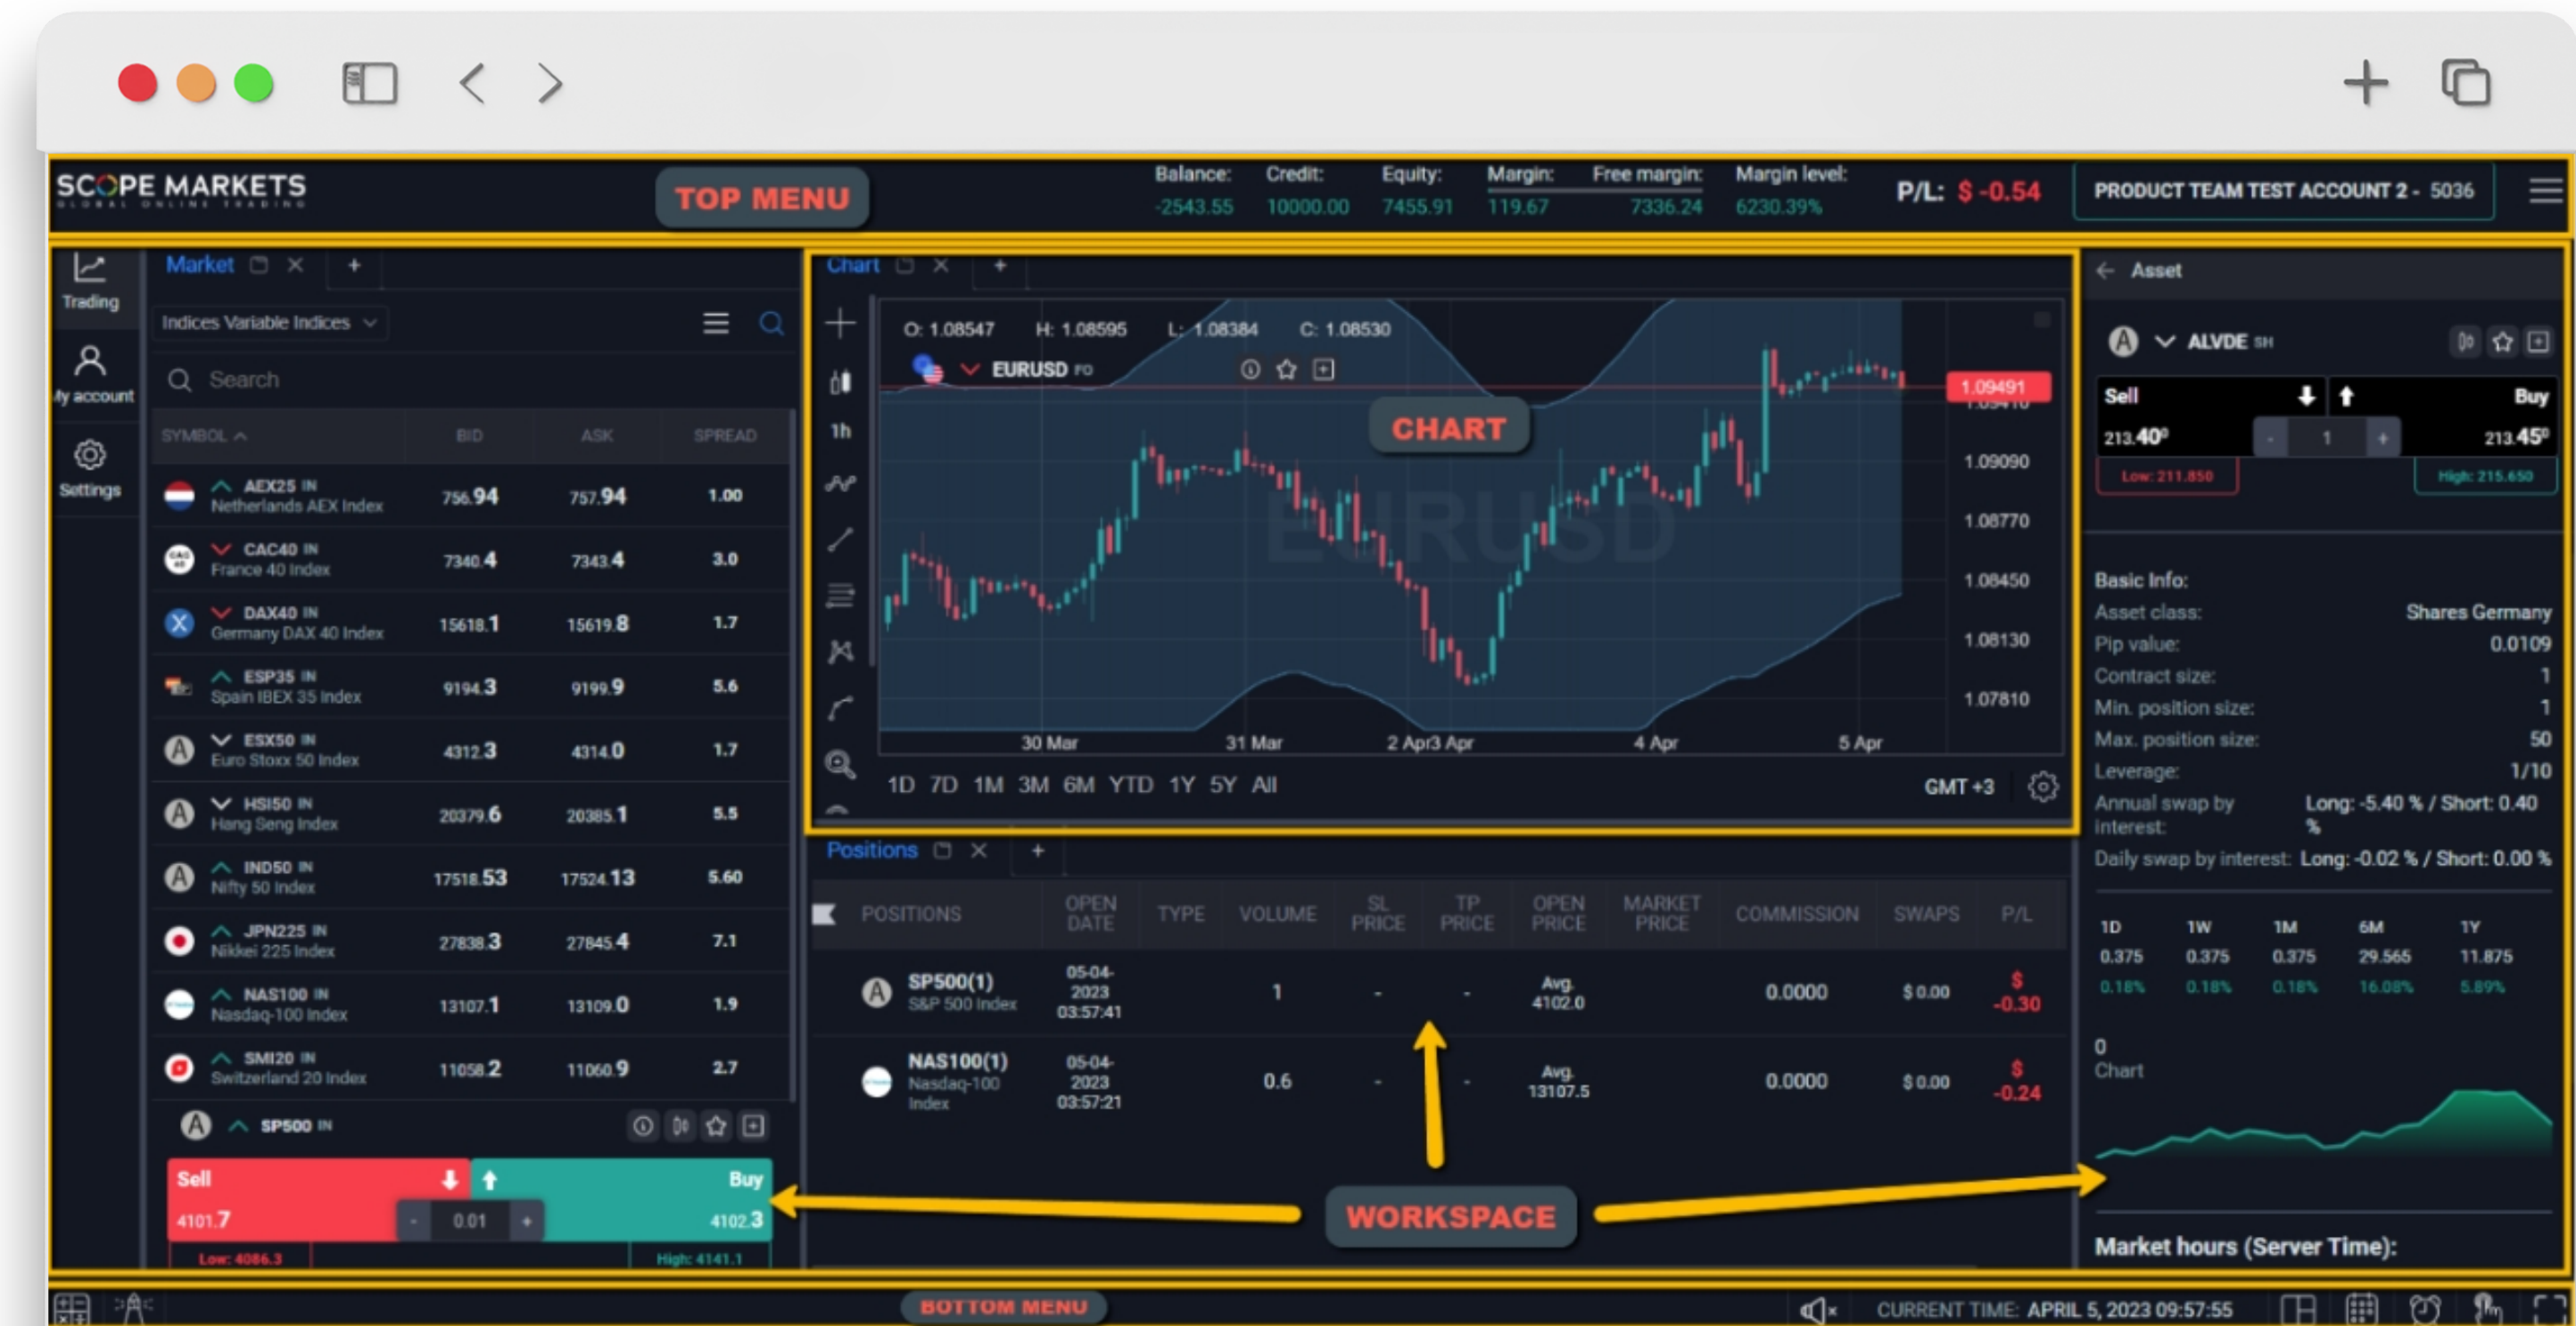

2

Enter your MetaTrader account ID.

3

Input your password. Next, click on the  
**SIGN IN** button to log in to your account

The platform offers a variety of strategically placed tools.

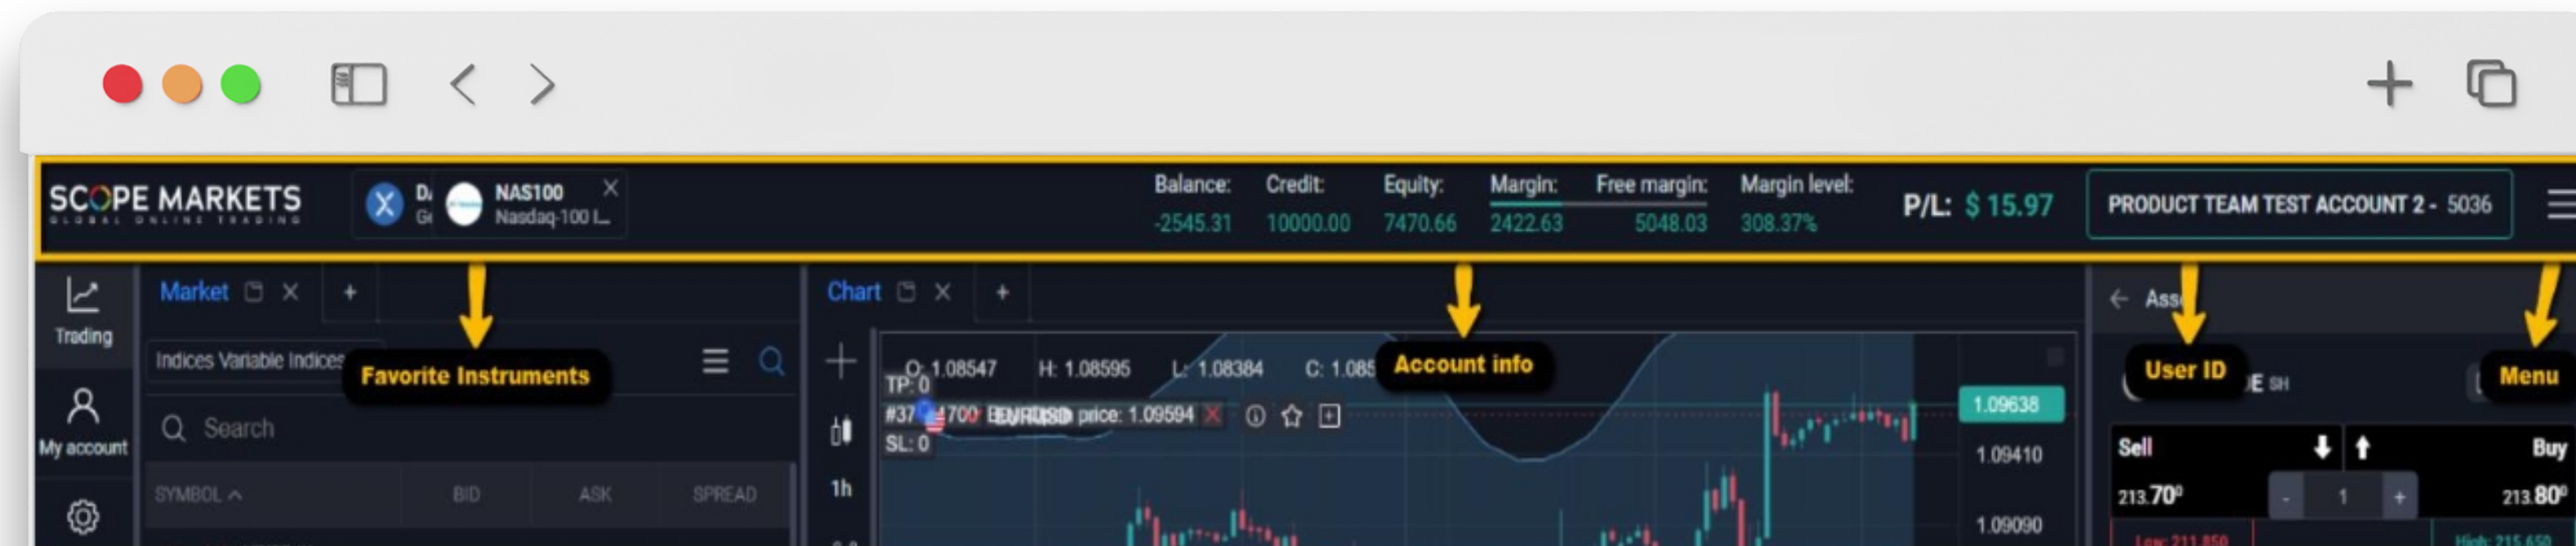

## 2. Top Menu

The top menu bar displays general information and tools for your convenience.

**Favorite Instruments:** this function allows you to pin your most traded instruments in one place for instant access to them at any time.

**Account Info:** this displays basic account data such as your balance, credit, equity, margin, free margin, margin level and profit/loss value.

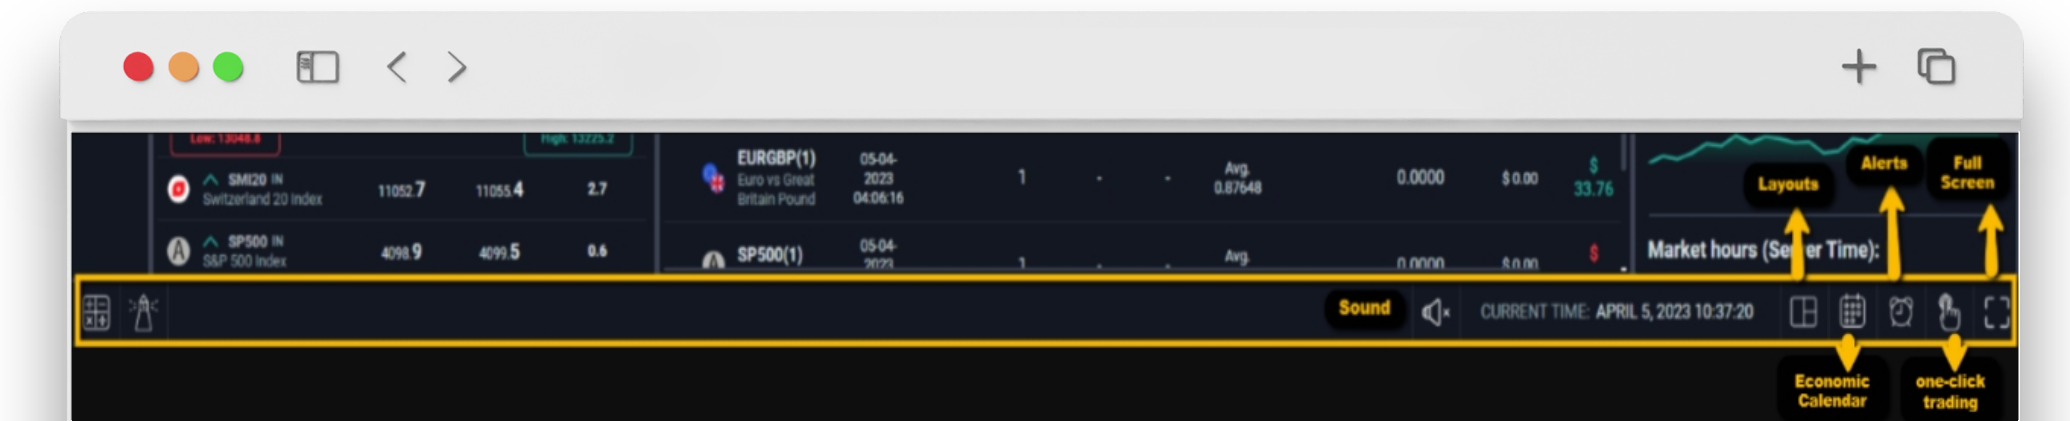

**Menu:** this is a popup toolbar that contains your settings and log out button.

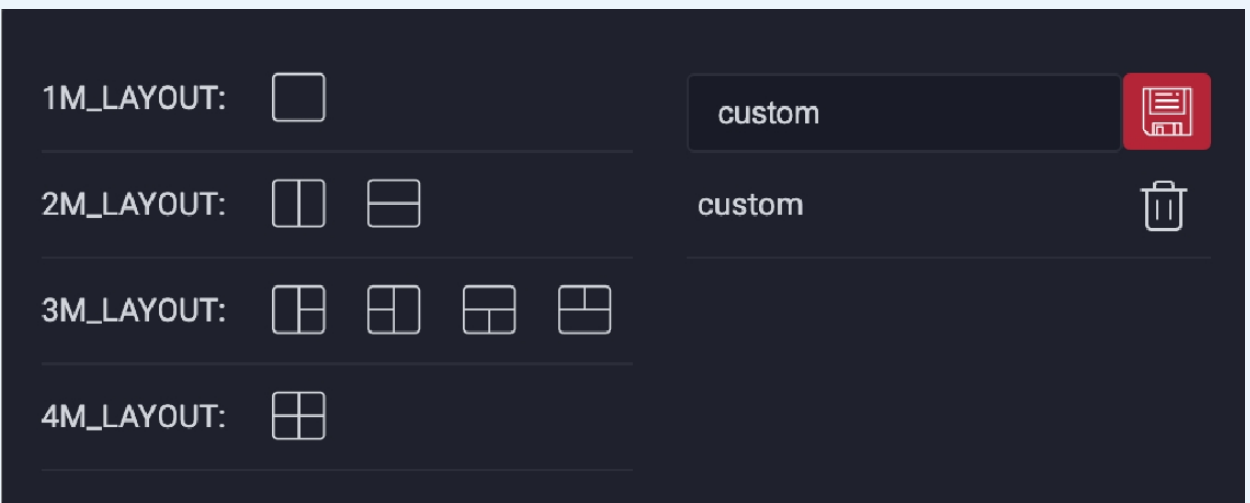

# 3. Trading Workspace

## 3.1 Bottom Bar

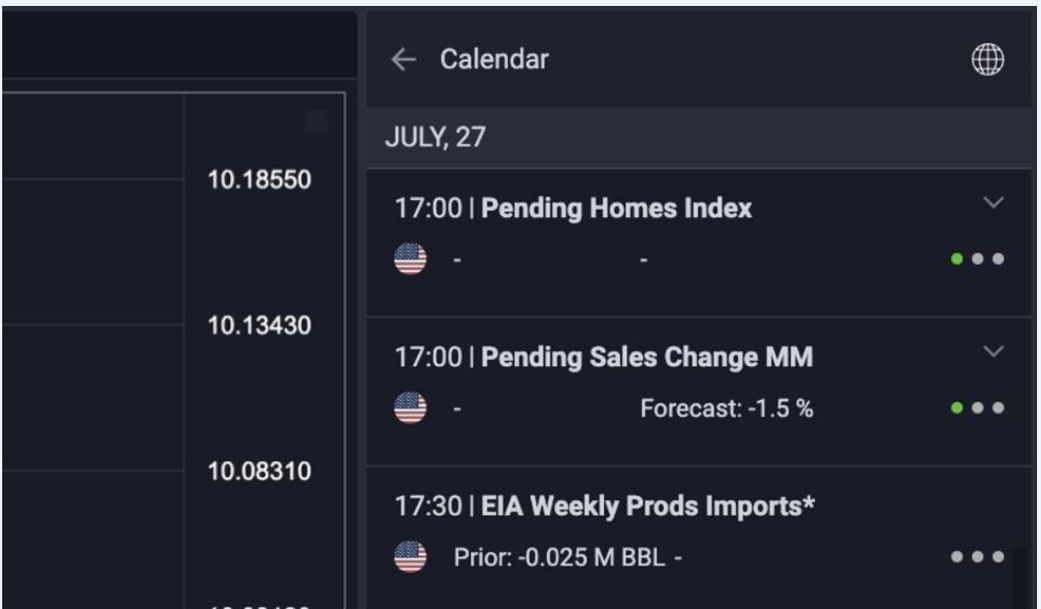

On the bottom bar, you'll find a group of flexible user tools.

- The **Sound** button controls sound within platform
- The **Server time** of this account according to the connected server
- **Layouts** enable you to customize work zones based on your personal preferences.

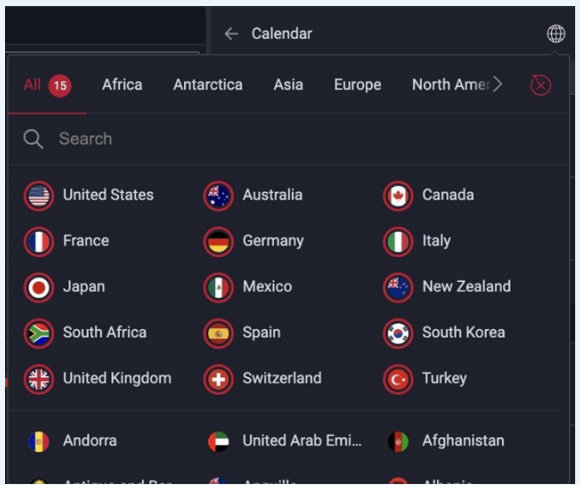

- The **Economic Calendar** contains all the news that can potentially affect the markets

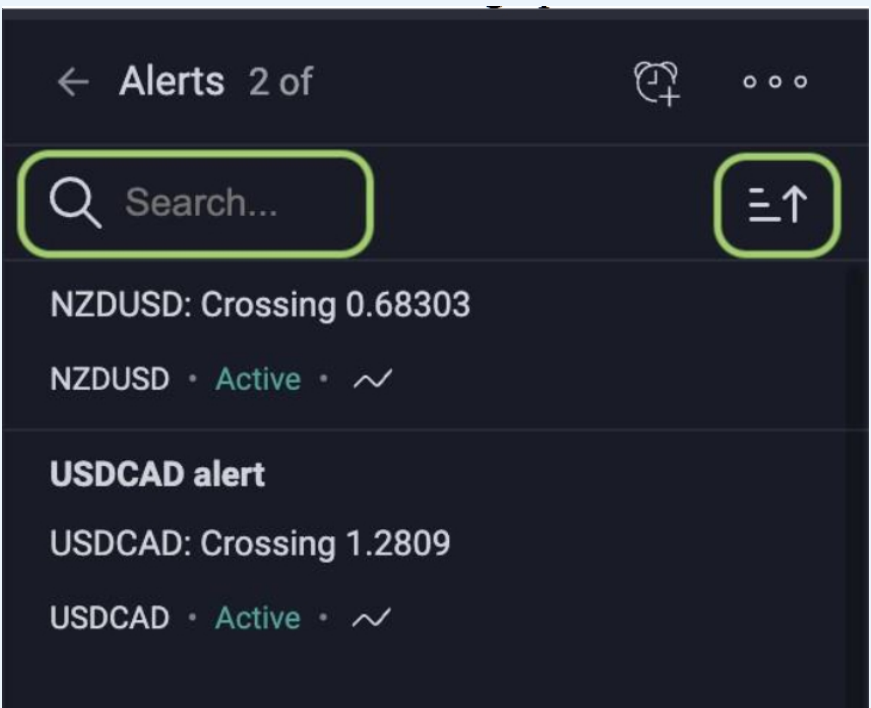

The calendar can be filtered by continents, countries and news

(Picture shows the way it is presented on the platform)

- Trading **Alerts** when a specific trigger occurs  
You'll be able to:
- Search for the alert by name or by instrument.
- Use the button 'change position' to select the alert order on the list.

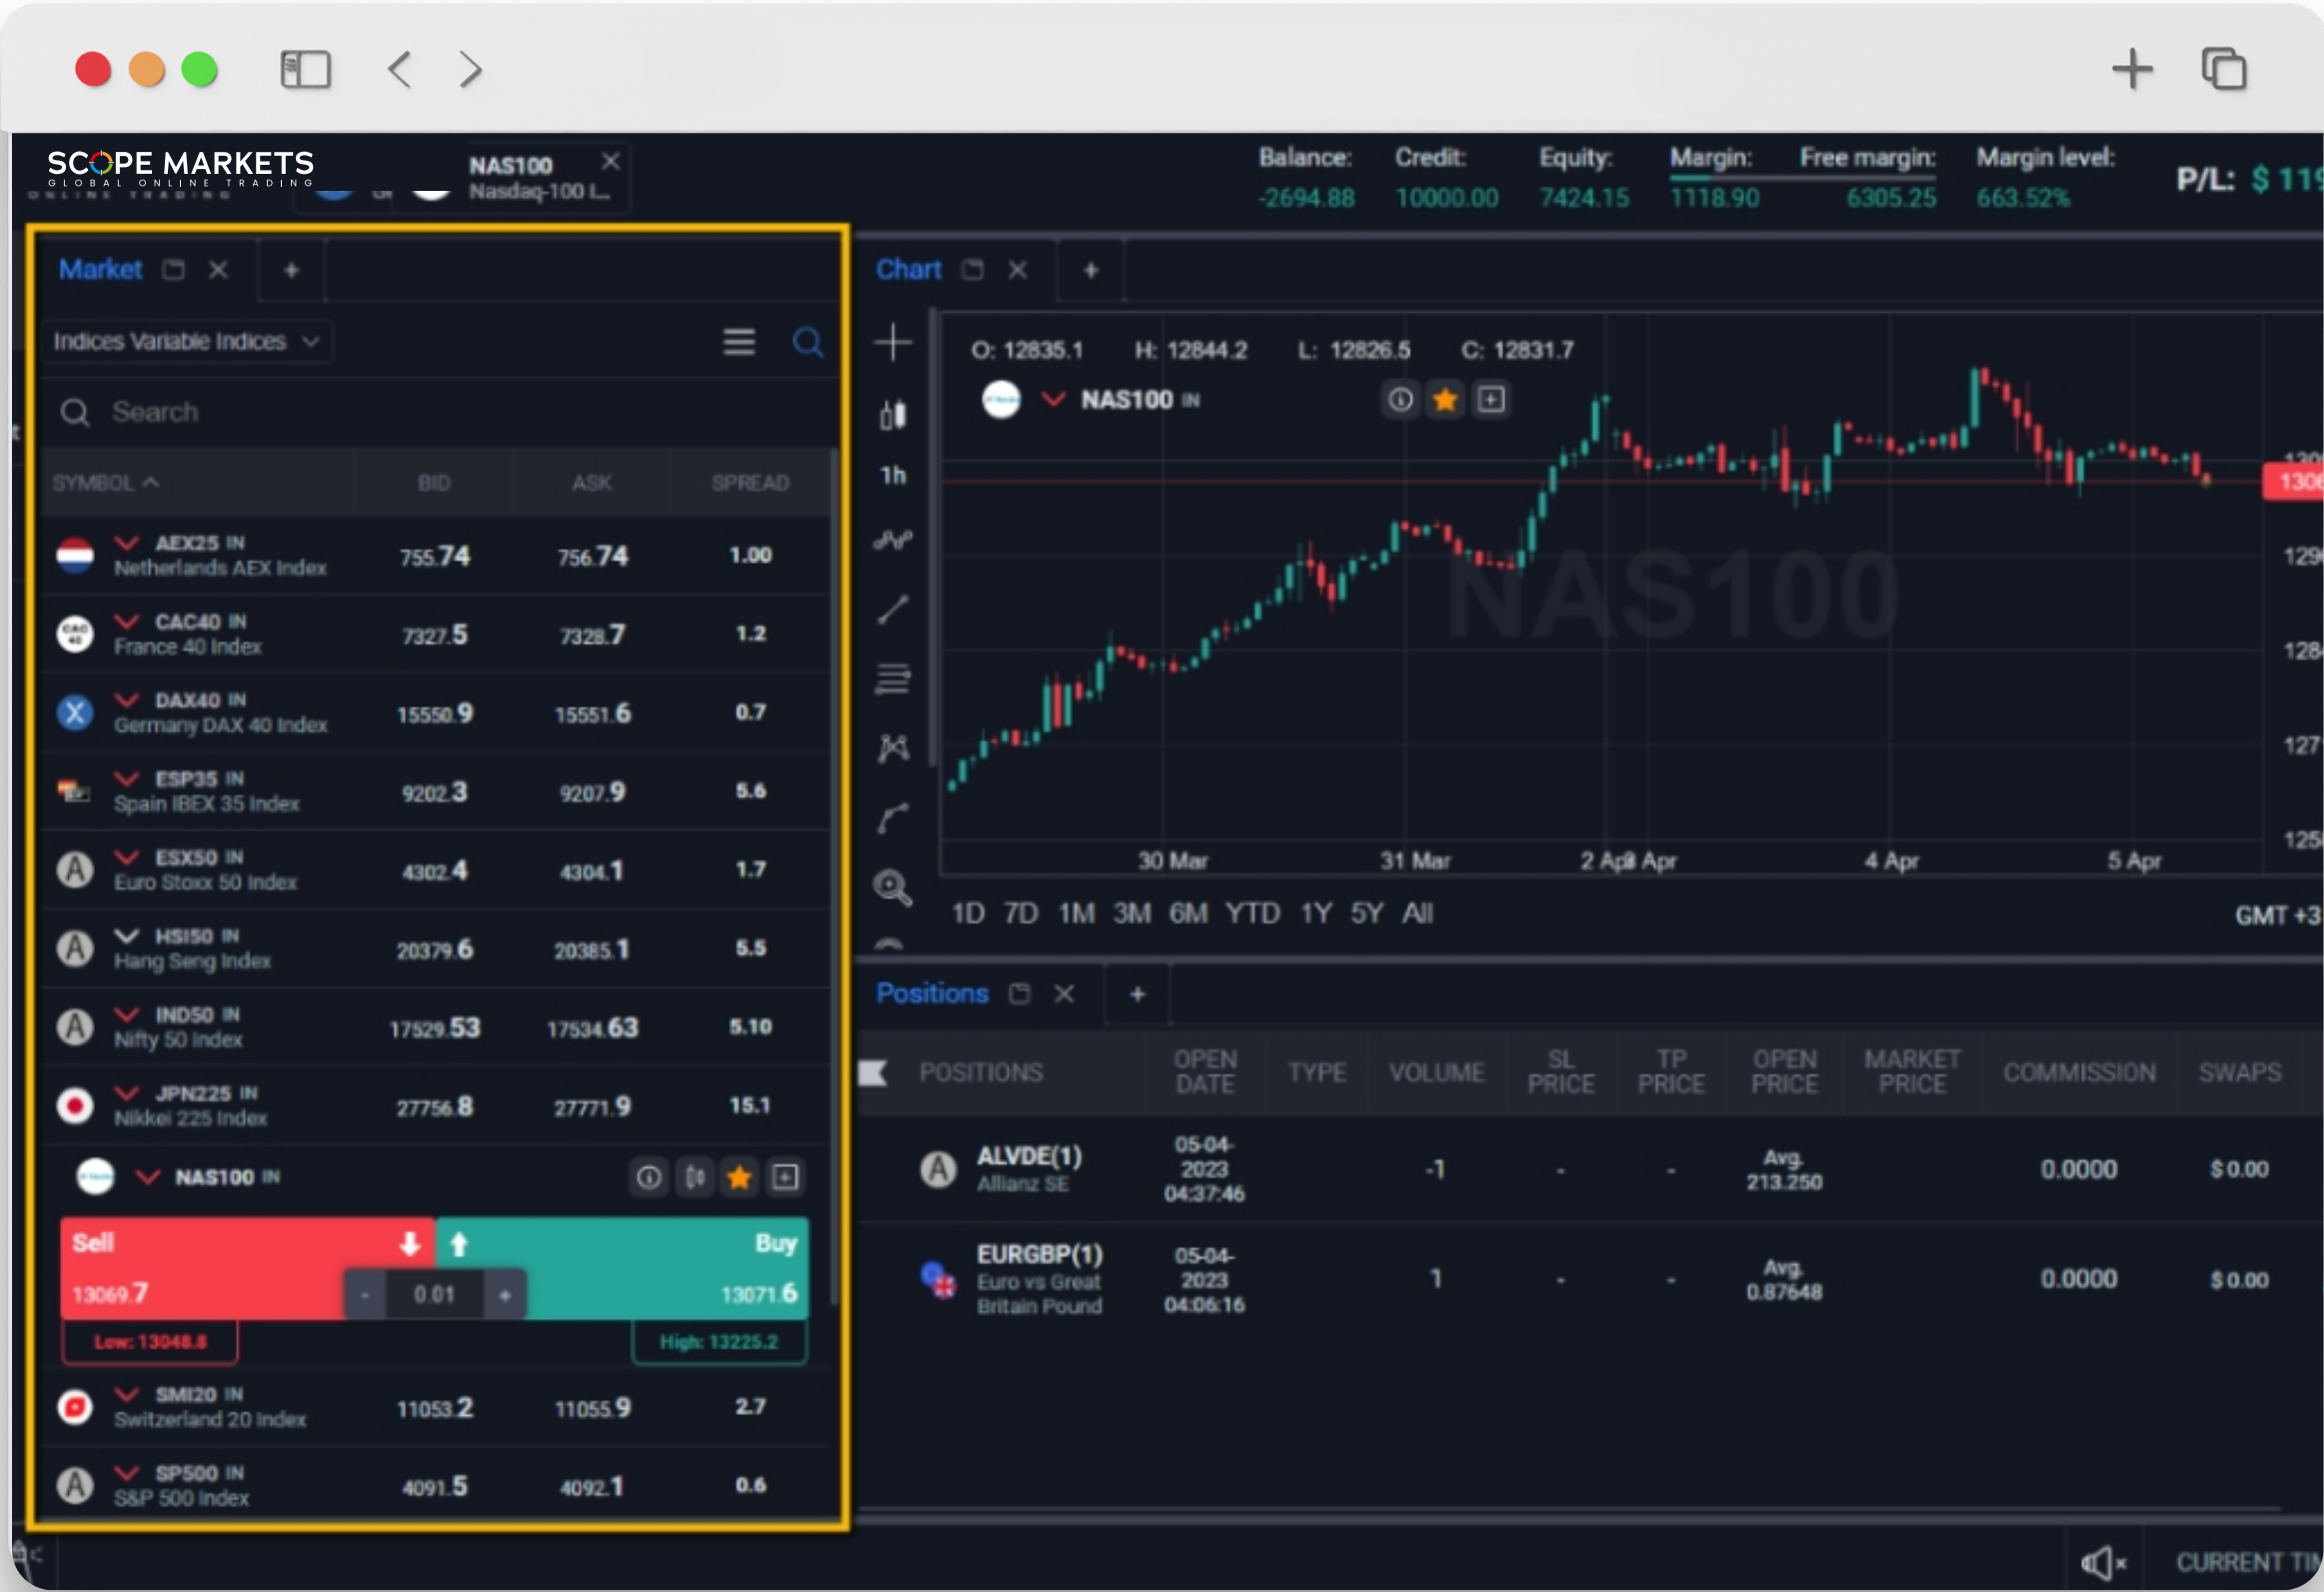

To enter **full screen mode**, press the relevant button in the bottom bar.

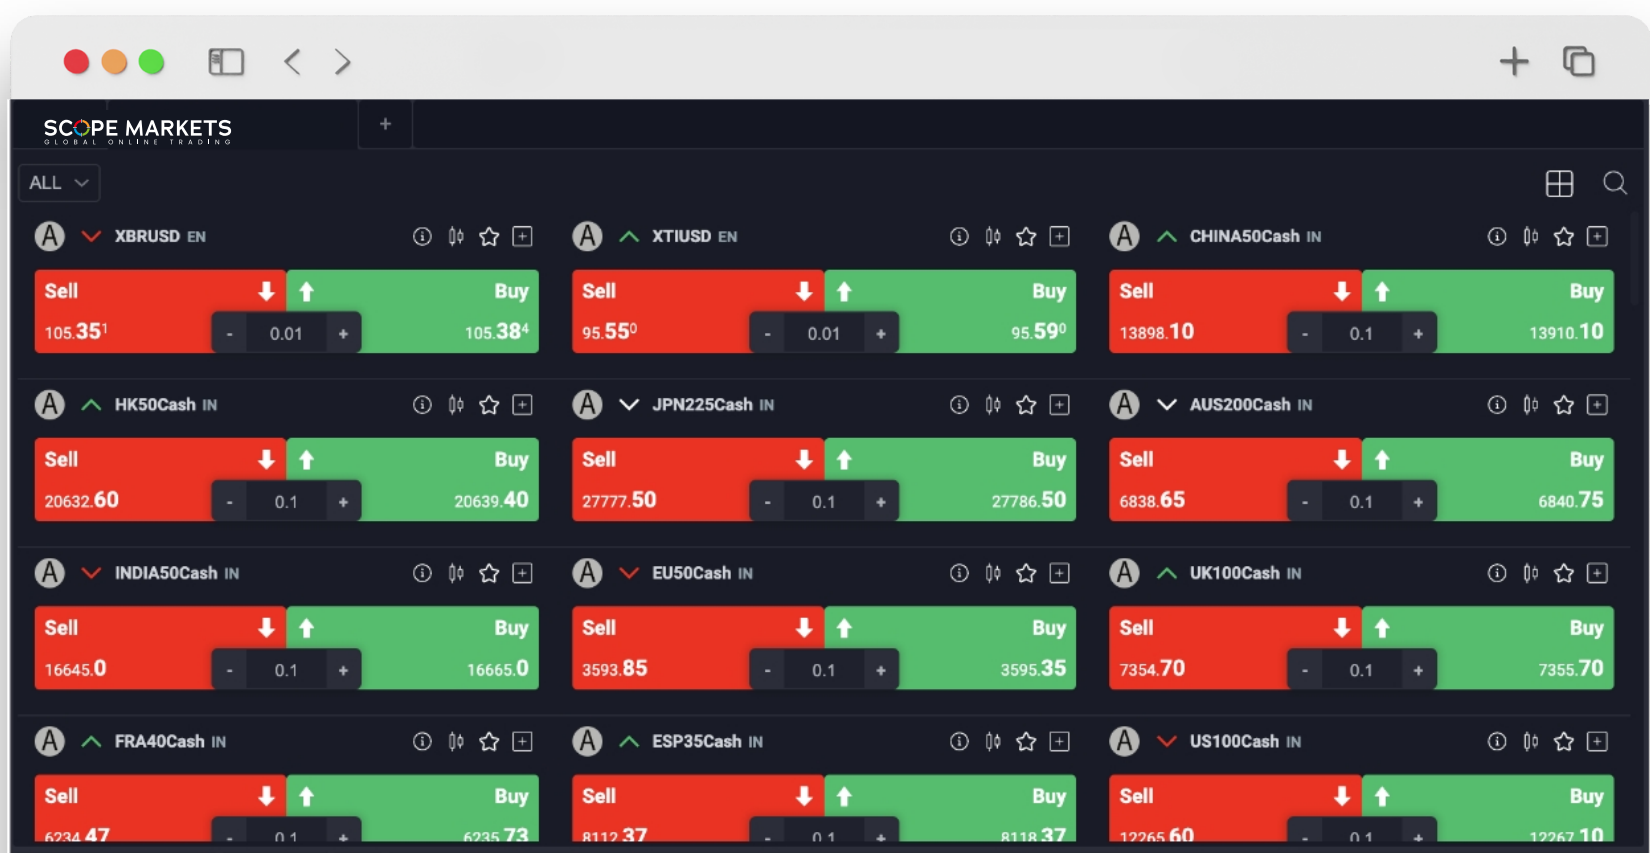

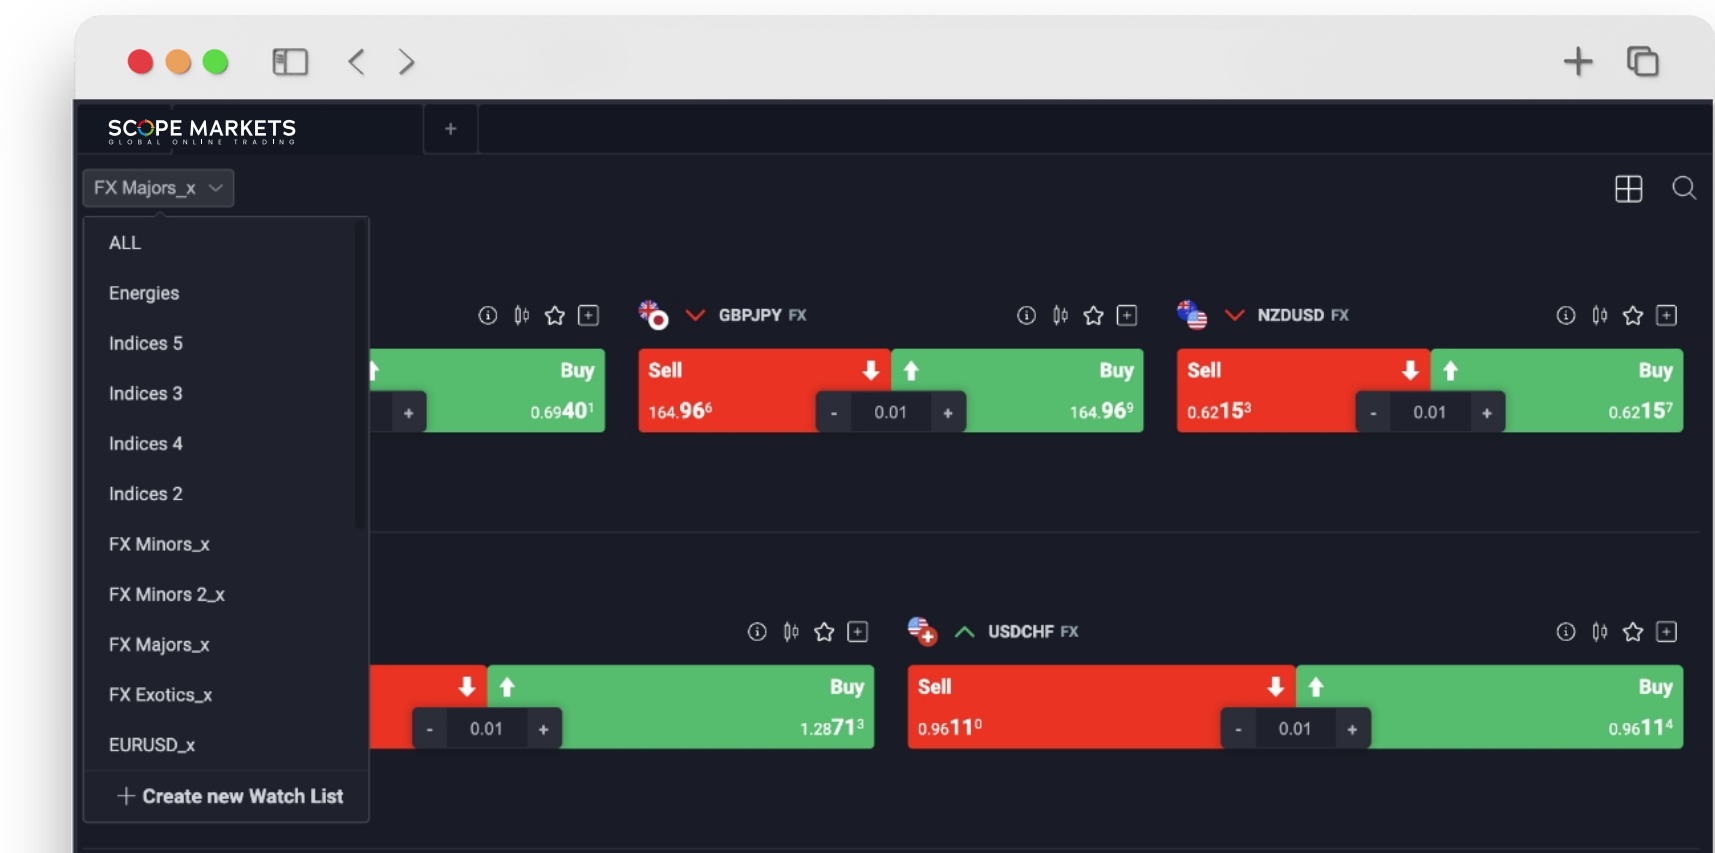

### 3.2 Market Section

The **Market** section is where you'll be able to find available trading instruments.

Click to see the asset's information, open a new chart, pin it to your **Favorites** or add to a new custom watchlist.

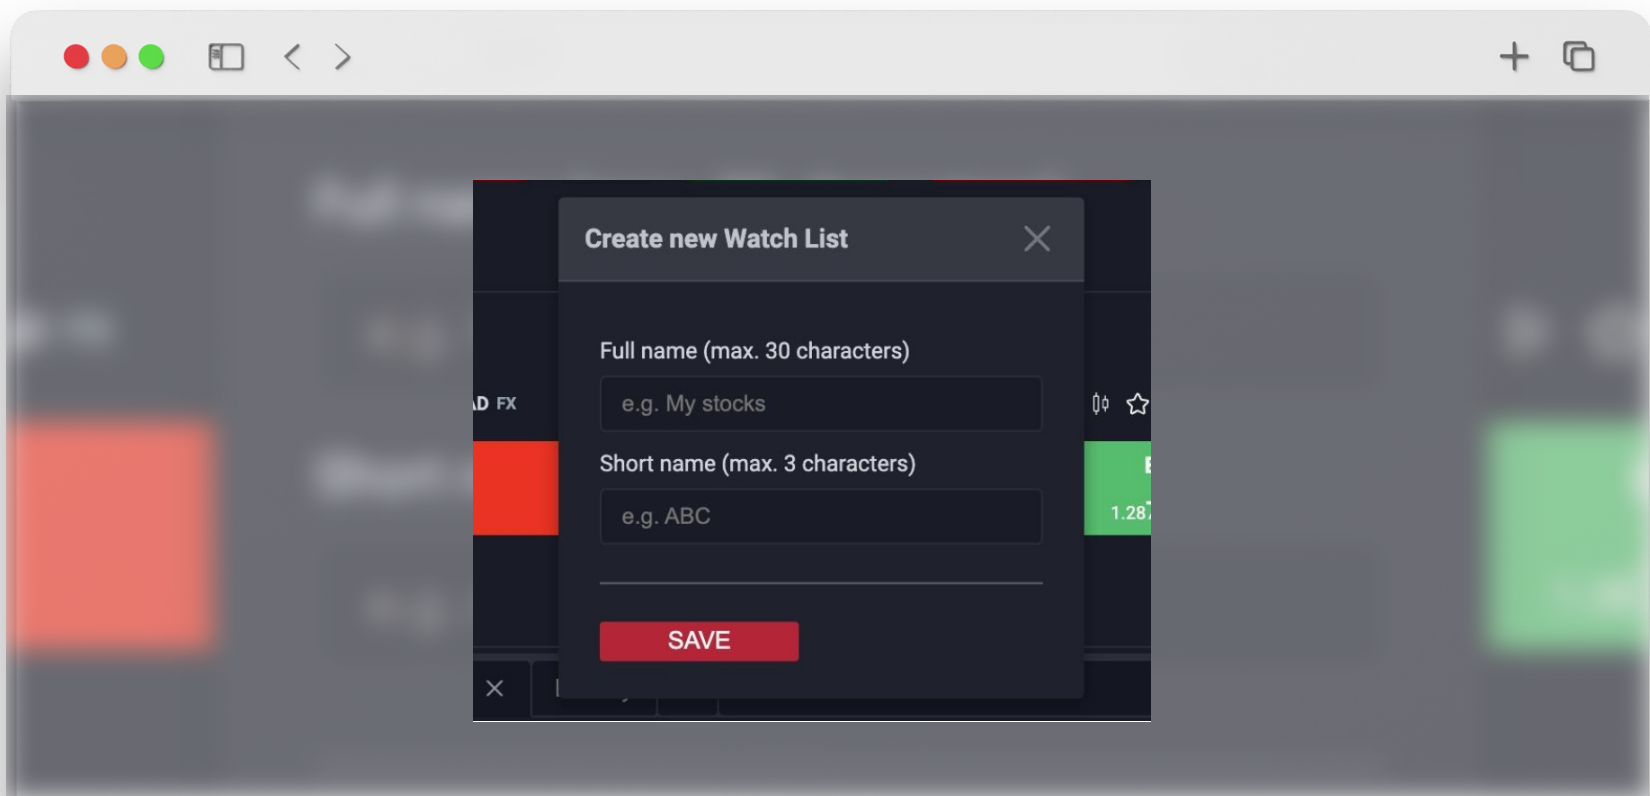

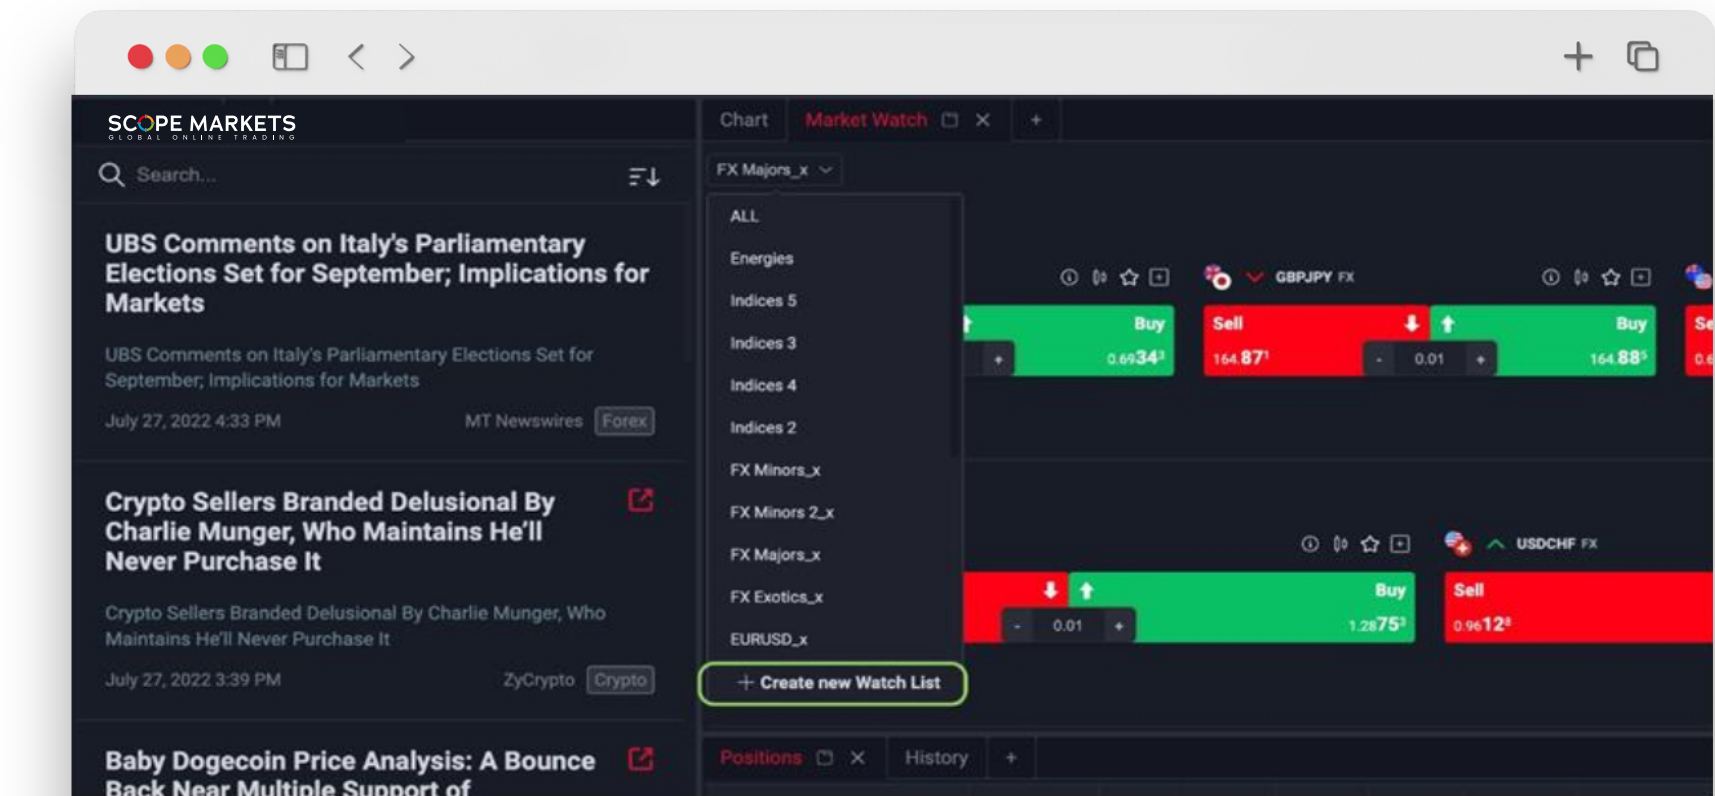

The Market section can be opened in two ways, either as fast access buttons (Buy/Sell) or as a list of assets.

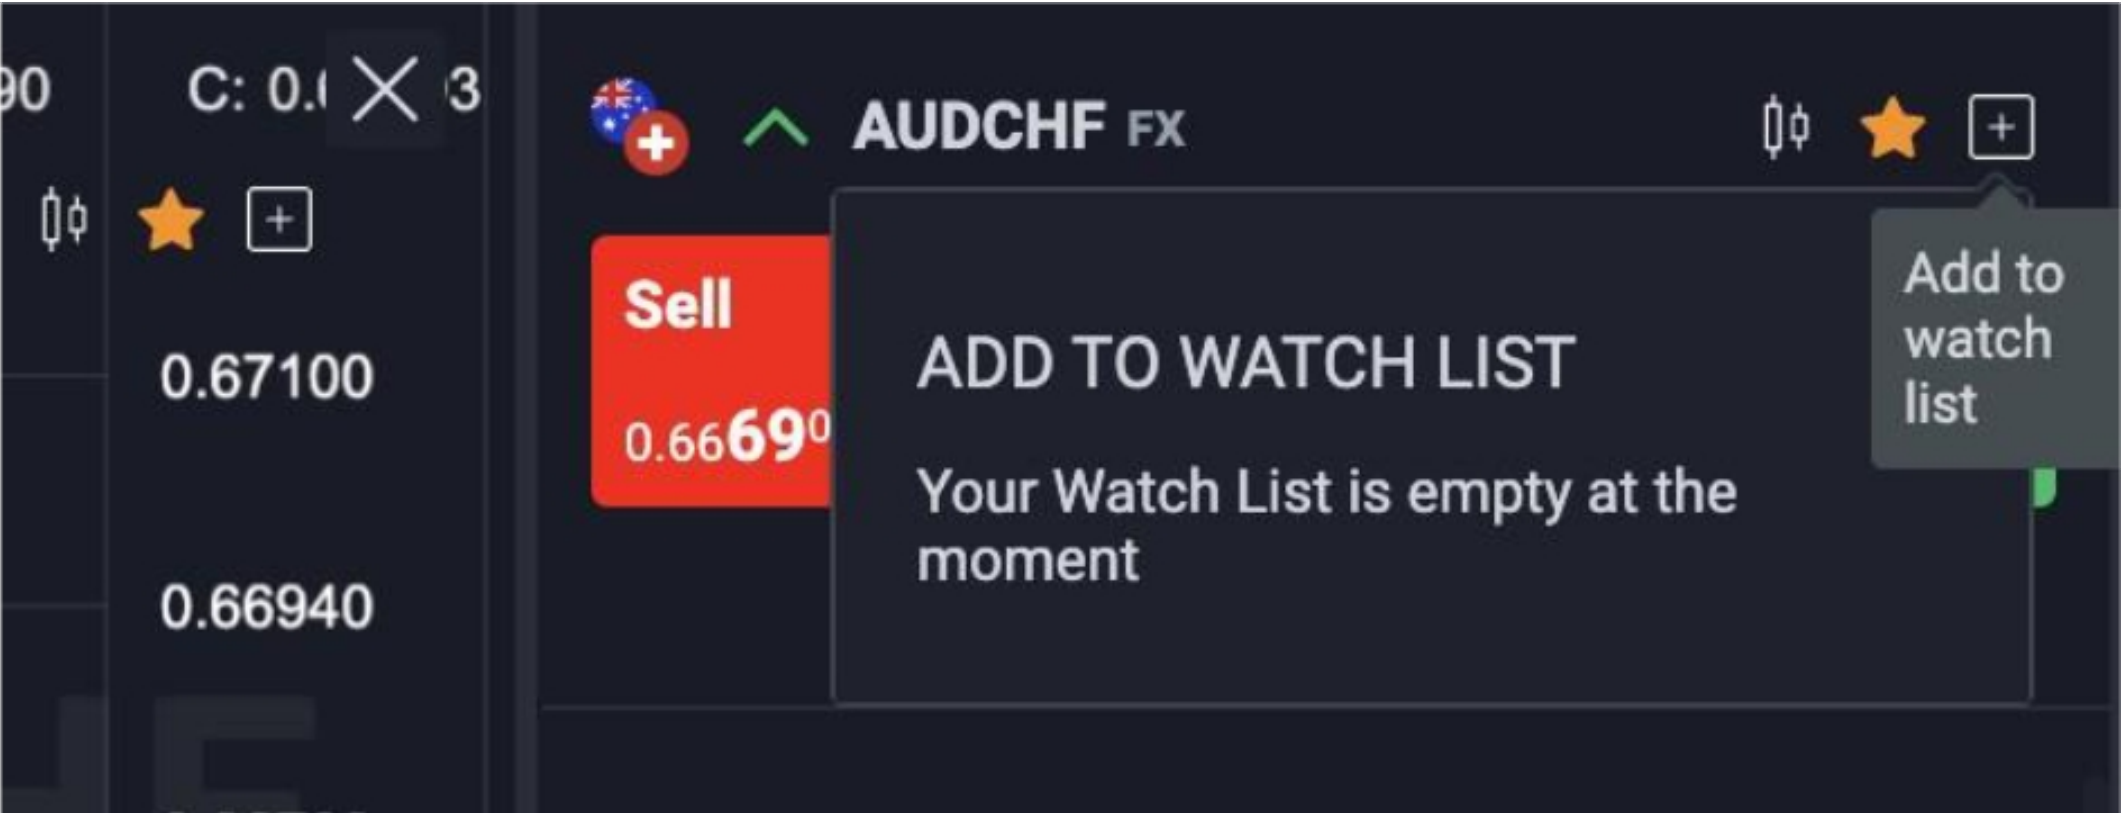

You can search by asset groups e.g., Forex, metals, stocks etc.

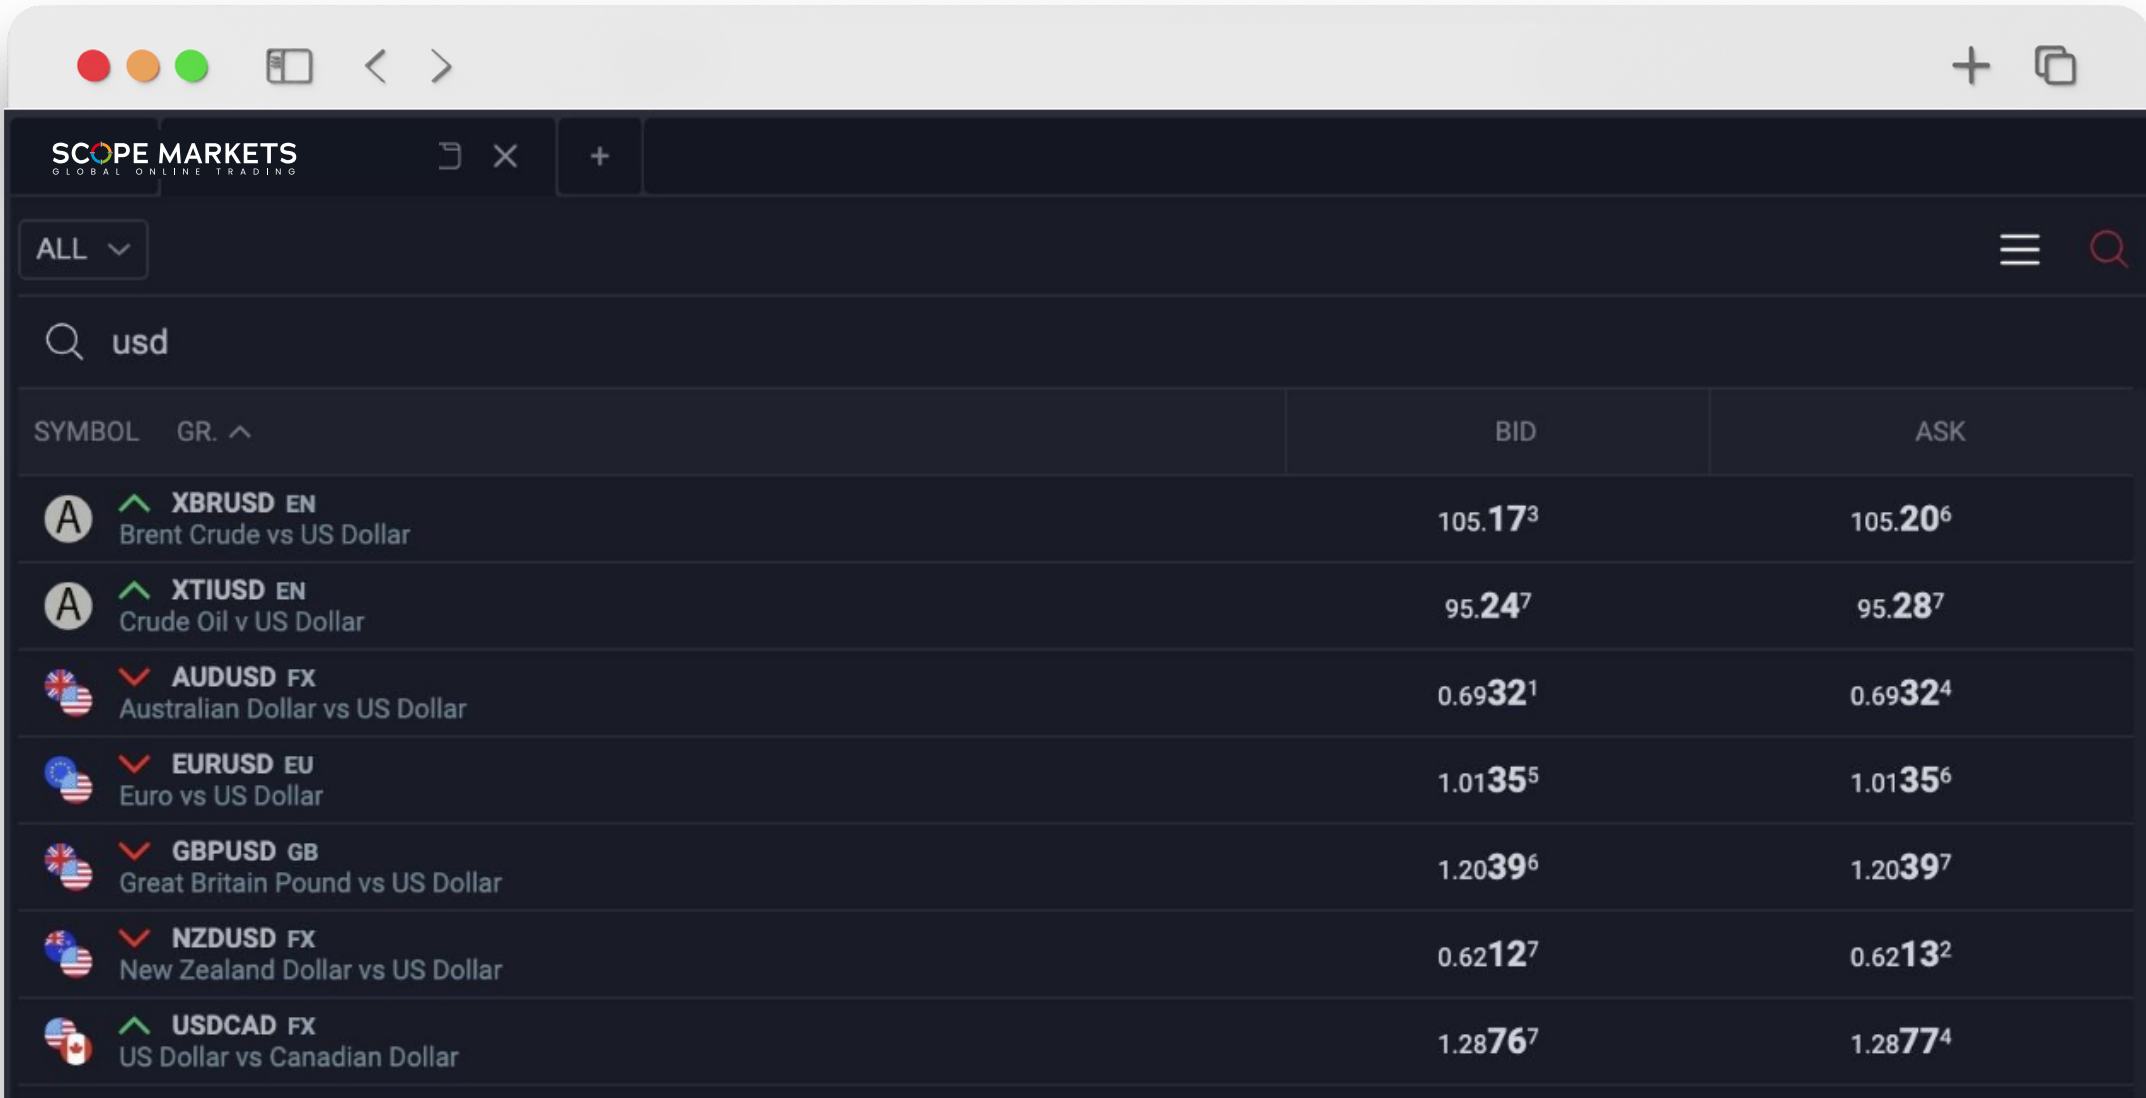

You can also create your own default asset group based on your personal preferences.

If you'd like to add to your custom watch list, press 'Add to Watch List' and choose one of the available options or create a new one if you haven't yet done so.

Another benefit of Market Watch is that you can use the 'Search' function to explore all assets. Just input the instrument you'd like to search, and the results will appear instantly.

### 3.3 Positions

The **Positions** area displays all orders executed on the platform. When you buy or sell an asset, it appears directly on the Positions section. From here, you can easily modify them as suits you.

- Click on an asset to see its information.

You can choose to close a position by closing a specific order, asset group or by selecting 'Close all' (at either a profit or loss).

**SL price/ TP price** – If either the stop loss or take profit price is zero, this means no conditions were added when the order was created.

**Market Price** – Current Bid (Buy) or Ask (Sell) price of the asset.

**Swaps** – Swap Value.

**Close All** – Select to close all positions.

The screenshot shows the 'POSITIONS' tab in the SCOPE MARKETS interface. It displays a table of open positions. A green dashed box highlights the first three rows, which are EURUSD positions. The first row is a summary for EURUSD(3) with an average open price of 1.05640 and a gross profit of \$34.30. The next two rows are individual orders: a sell order (200475843) and another sell order (200475842), both with a volume of 0.01 and a gross profit of \$34.51 and \$34.52 respectively. The third row is a buy order (200475841) with a volume of 0.01 and a gross loss of \$34.73. The fourth row is a summary for XBRUSD(2) with an average open price of 110.175 and a gross profit of \$27.97. The fifth row is an individual buy order (200508949) for XBRUSD with a volume of 0.05 and a gross profit of \$84.50. The table includes columns for OPEN DATE, TYPE, VOLUME, SL PRICE, TP PRICE, OPEN PRICE, MARKET PRICE, COMMISSION, SWAPS, GROSS PROFIT, and a 'Close all' button.

	OPEN DATE	TYPE	VOLUME	SL PRICE	TP PRICE	OPEN PRICE	MARKET PRICE	COMMISSION	SWAPS	GROSS PROFIT	
<b>EURUSD(3)</b> Euro vs US Dollar	21-06-2022 11:52:06		-0.01	-	-	Avg. 1.05640		0.0000	\$ -0.27	\$ 34.30	...

### 3.4 History

This area shows all previously closed trades.

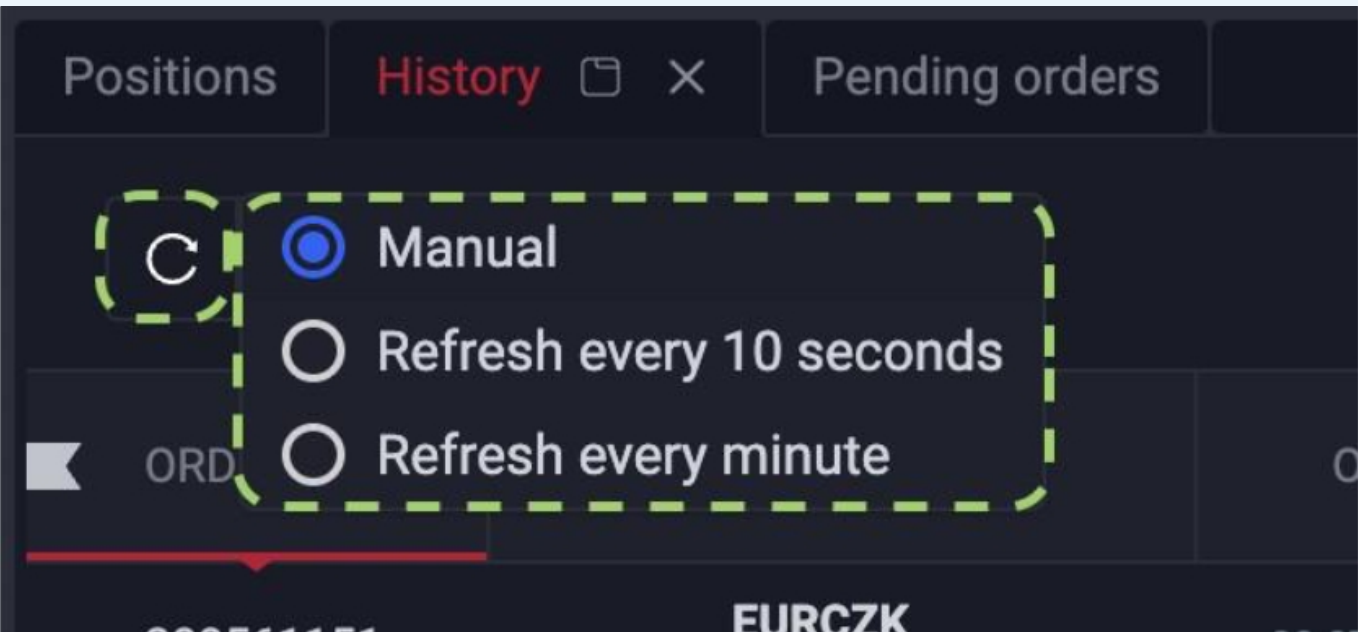

The screenshot shows the 'History' tab in the Scope Markets trading interface. A dashed green box highlights the 'C' (refresh) button and the 'Columns' button. Another dashed green box highlights the 'Filters' button. The table below lists several trades with columns for ORDER, SYMBOL, OPEN DATE, CLOSE DATE, TYPE, VOLUME, OPEN PRICE, CLOSE PRICE, TP, SL, COMMISSION, and NET PROFIT.

ORDER	SYMBOL	OPEN DATE	CLOSE DATE	TYPE	VOLUME	OPEN PRICE	CLOSE PRICE	TP	SL	COMMISSION	NET PROFIT
200561151	EURCZK Euro vs Czech Koruna	28-07-2022 05:46:09	28-07-2022 05:46:09	Buy	0.1	24.6112	24.5553	-	-	0.0000	\$ -23.25
200478134	USDJPY US Dollar vs Japanese Yen	22-06-2022 09:39:42	22-06-2022 09:40:00	Buy	0.01	135.880	135.866	-	-	0.0000	\$ -0.10

200475849	EURUSD Euro vs US Dollar	21-06-2022 11:52:17	28-07-2022 05:47:44	Buy	0.04	1.05636	1.02140	-	-	0.0000	\$ -139.84
200475848	EURUSD Euro vs US Dollar	21-06-2022 11:52:15	28-07-2022 05:47:46	Buy	0.04	1.05637	1.02140	-	-	0.0000	\$ -139.88

1

Refresh your history manually or choose how often the information should be refreshed.

2

Use the column setting to show or remove information that you don't need.

The screenshot shows the 'History' tab in the Scope Markets trading interface. A dashed green box highlights the column settings menu, which includes the following options:

- Open Price (checked)
- Close Price (checked)
- TP (unchecked)
- SL (unchecked)

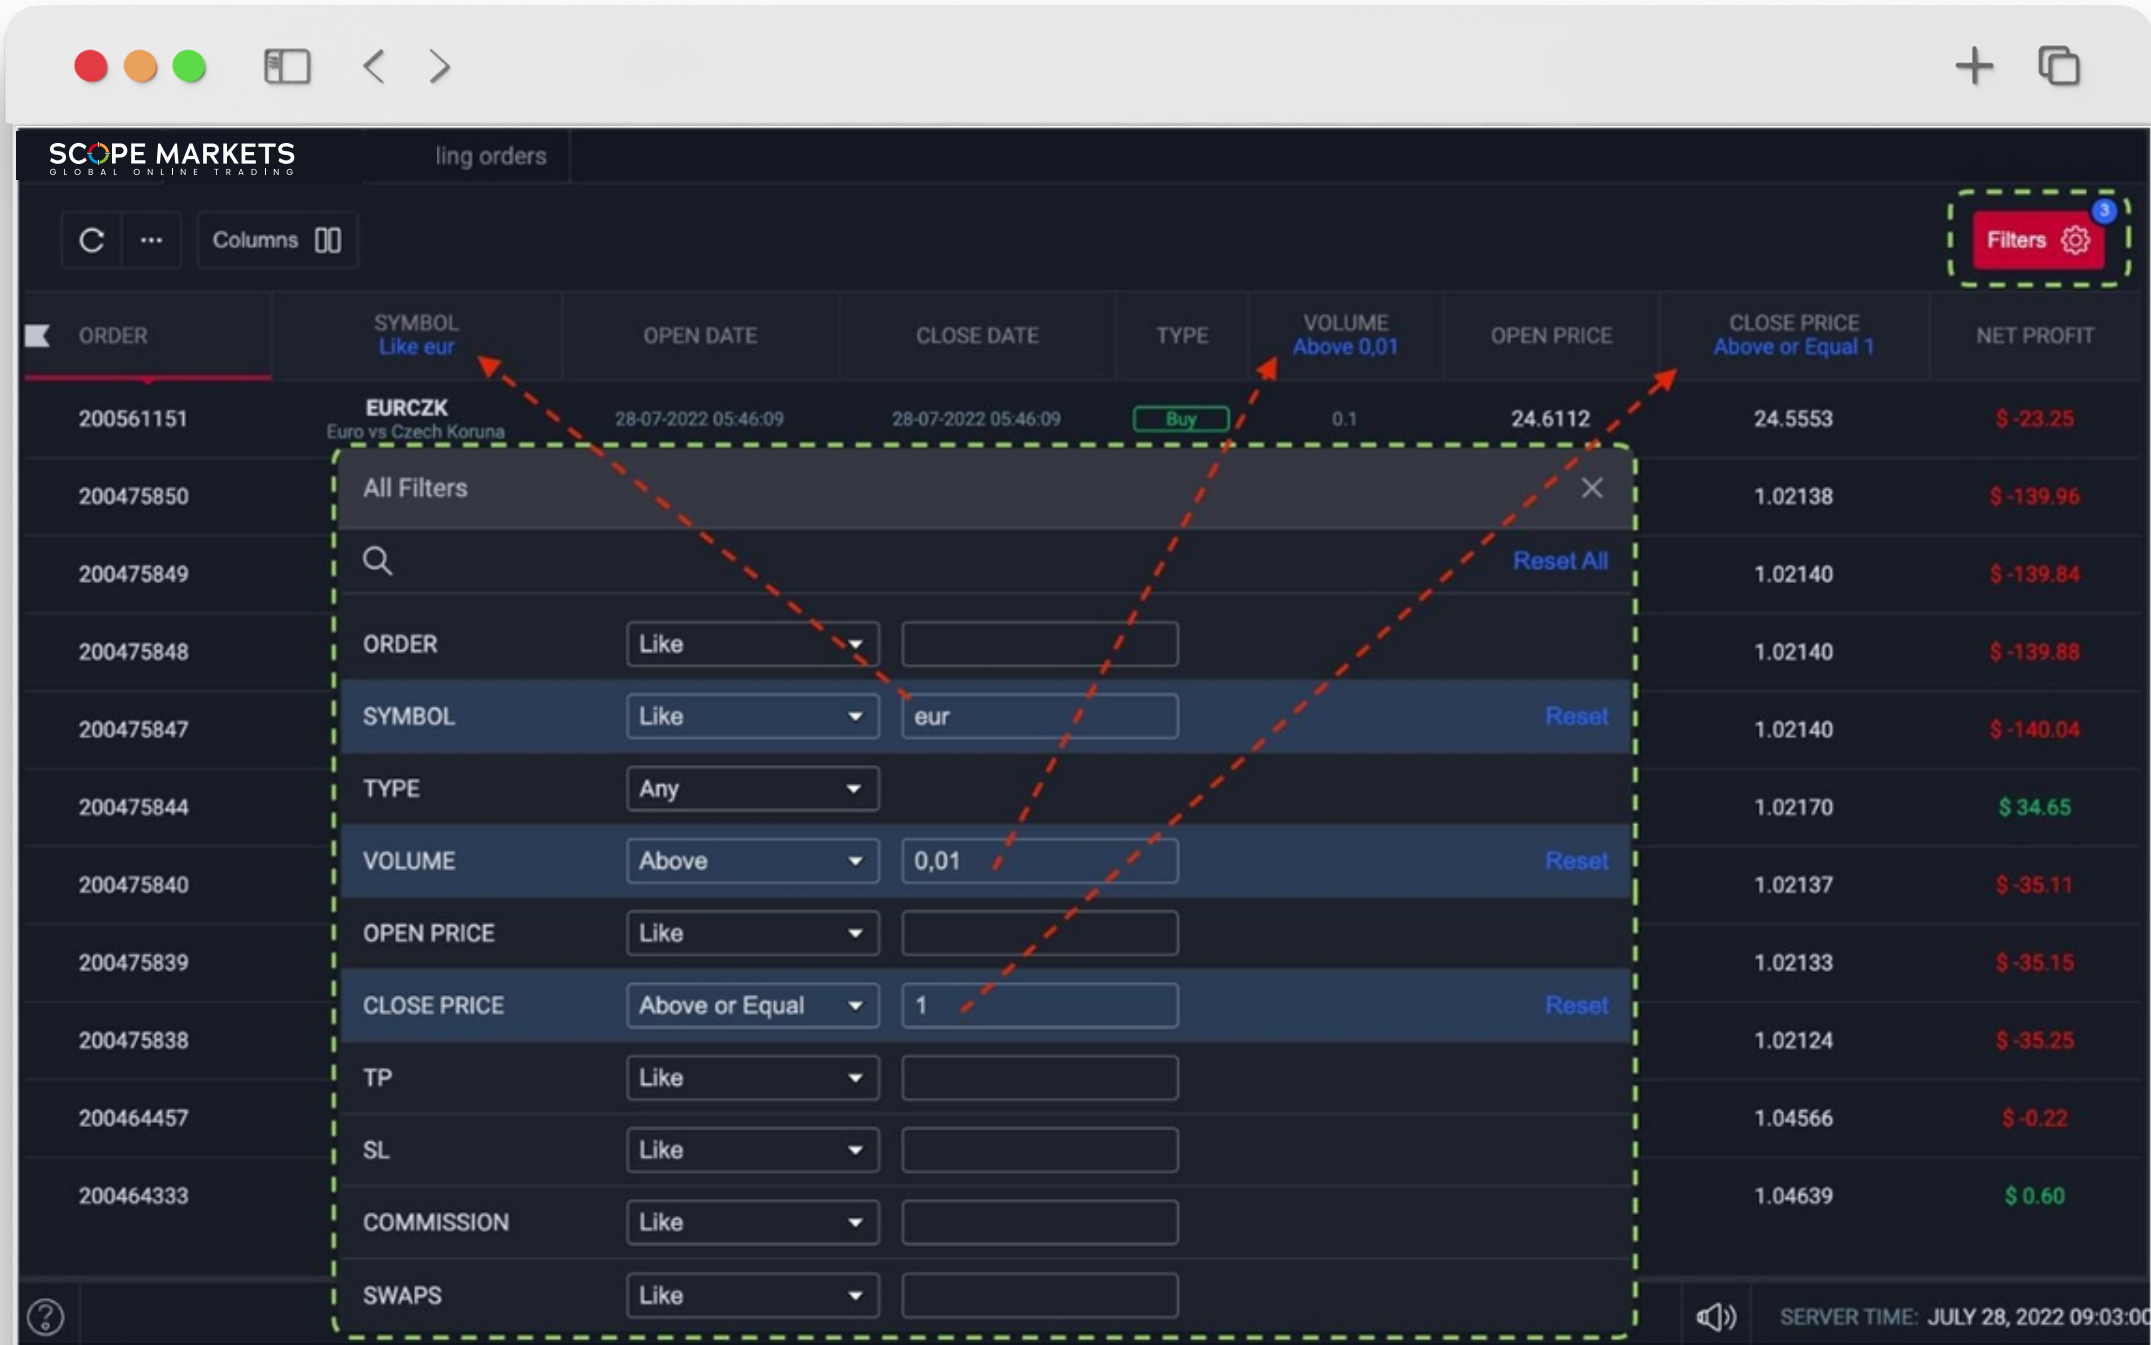

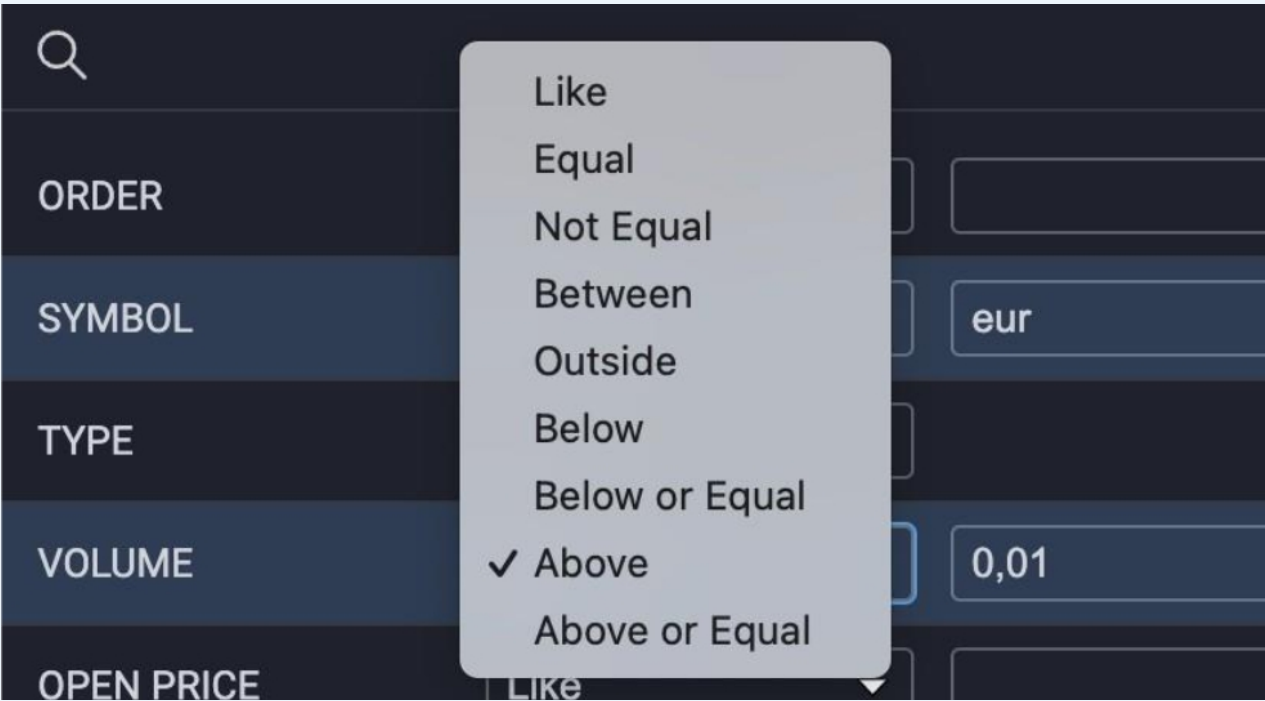

The table below shows the same list of trades as in the previous screenshot, but with the 'TP' and 'SL' columns removed.

ORDER	SYMBOL	OPEN DATE	CLOSE DATE	TYPE	VOLUME	OPEN PRICE	CLOSE PRICE	NET PROFIT
200561151	EURCZK Euro vs Czech Koruna	28-07-2022 05:46:09	28-07-2022 05:46:09	Buy	0.1	24.6112	24.5553	\$ -23.25
200478134	USDJPY US Dollar vs Japanese Yen	22-06-2022 09:39:42	22-06-2022 09:40:00	Buy	0.01	135.880	135.866	\$ -0.10
200478131	USDJPY US Dollar vs Japanese Yen	22-06-2022 09:39:09	22-06-2022 09:39:21	Sell	0.01	135.872	135.863	\$ 0.07

**Filters** is another function available in the **History** section.

You can use a wide range of data display options. All results will be shown based on the preferences you select.

To remove these filters, use **Reset** for one individual filter and **Reset All** for all of them.

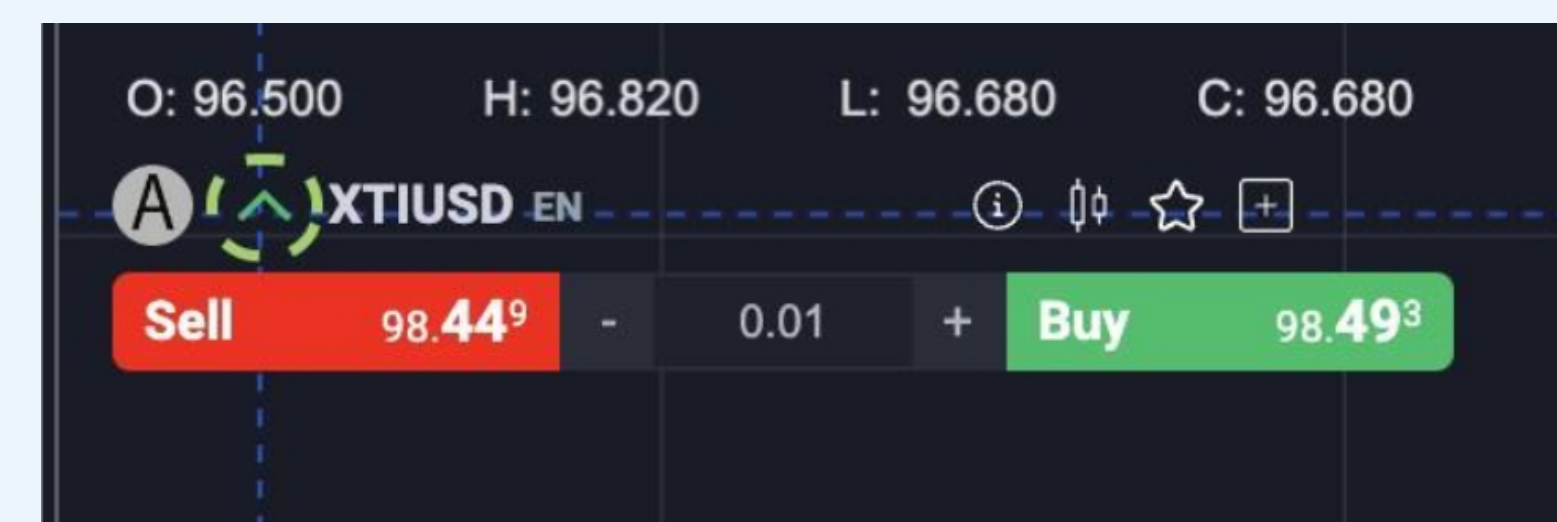

## 3.5 Chart

The **Chart** section offers a range of analytical features, including different chart types, time frames, indicators and drawing tools.

**Order type** information can also be found in the **Position** area. You can see the position direction based on the arrow shown.

When buying or selling, the order completion window, called Trade Panel, pops up. From there, you can click to create a Stop Loss or Take Profit order as you prefer.

BUY STOP

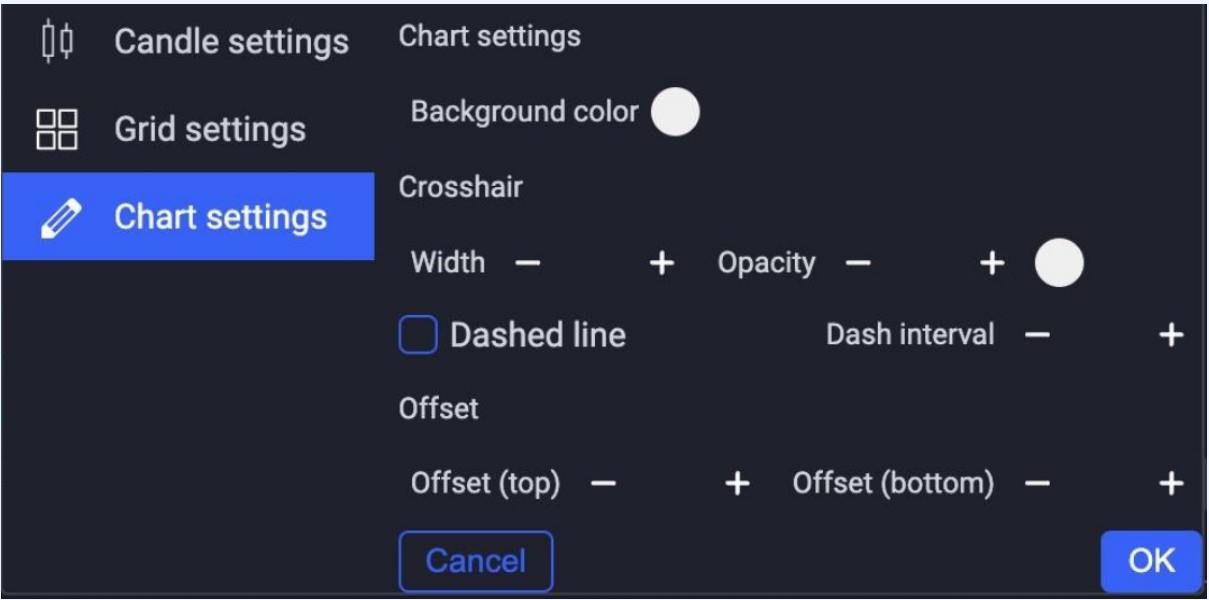

Lower in the chart, you'll see time zone info and chart settings such as **Candle**, where you can choose the color of the candle fill, borders, and wicks.

In **Grid settings**, you can adjust chart grid color options, scale, and thickness of grid line settings.

You can also customize the chart background, crosshair width, opacity, and color, add dashed lines and their intervals, and offset (top and bottom)

On the left-hand side of your chart, you can find the Instrument panel

**Crosshair** lines turn on/off switch.

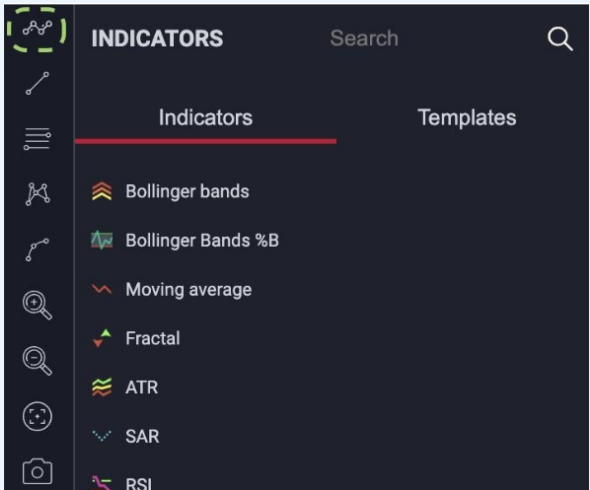

**Chart type** options.

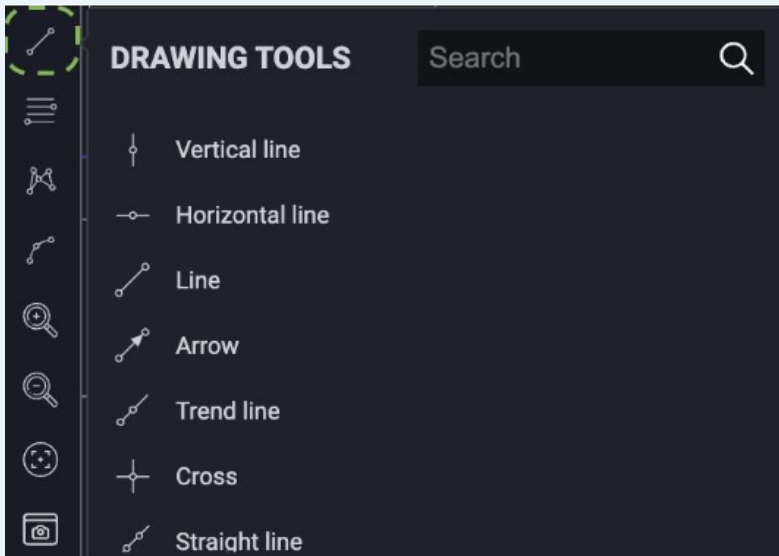

**Indicators**

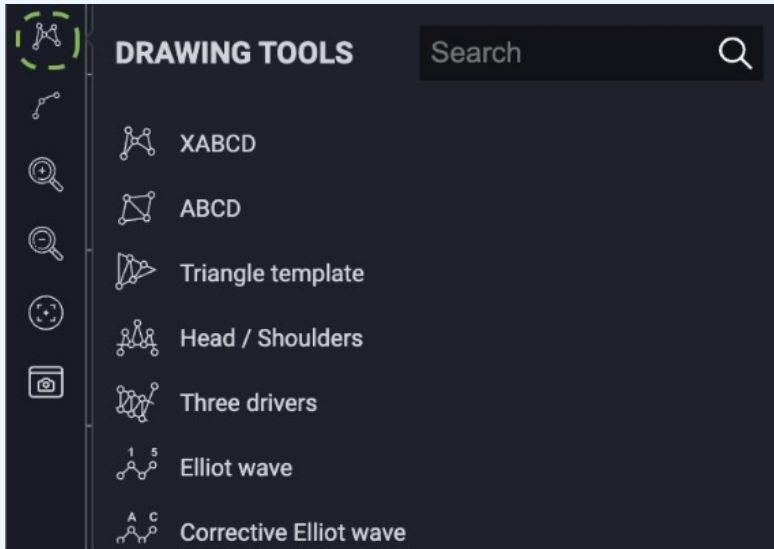

There are over 50 indicators available to choose from.

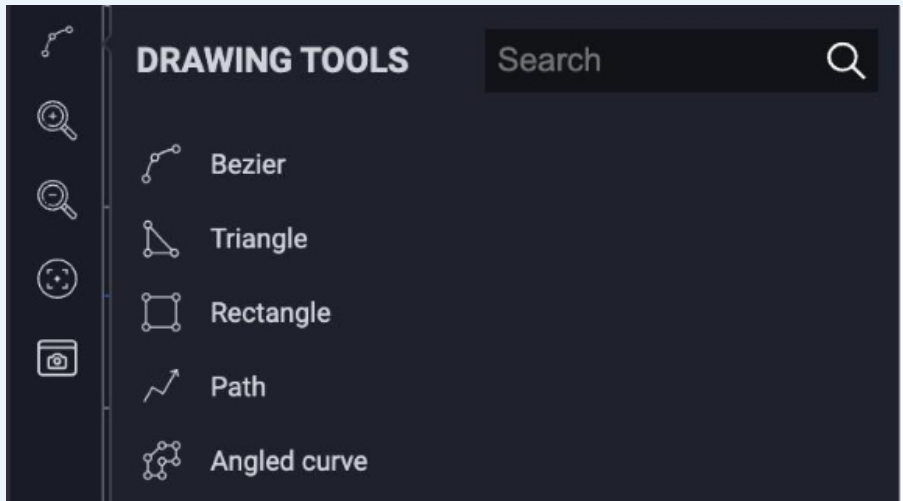

**Linear drawing tools**

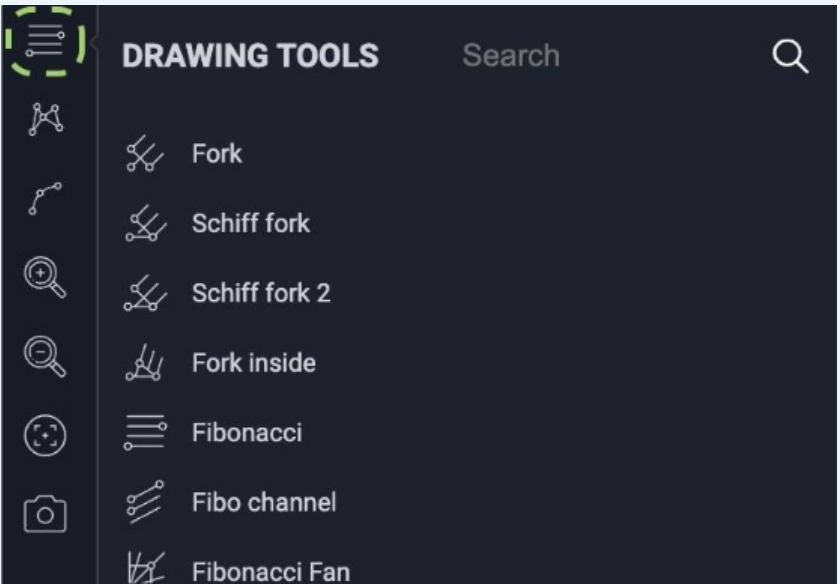

**Poly drawing tools**

**Geometric drawing tools**

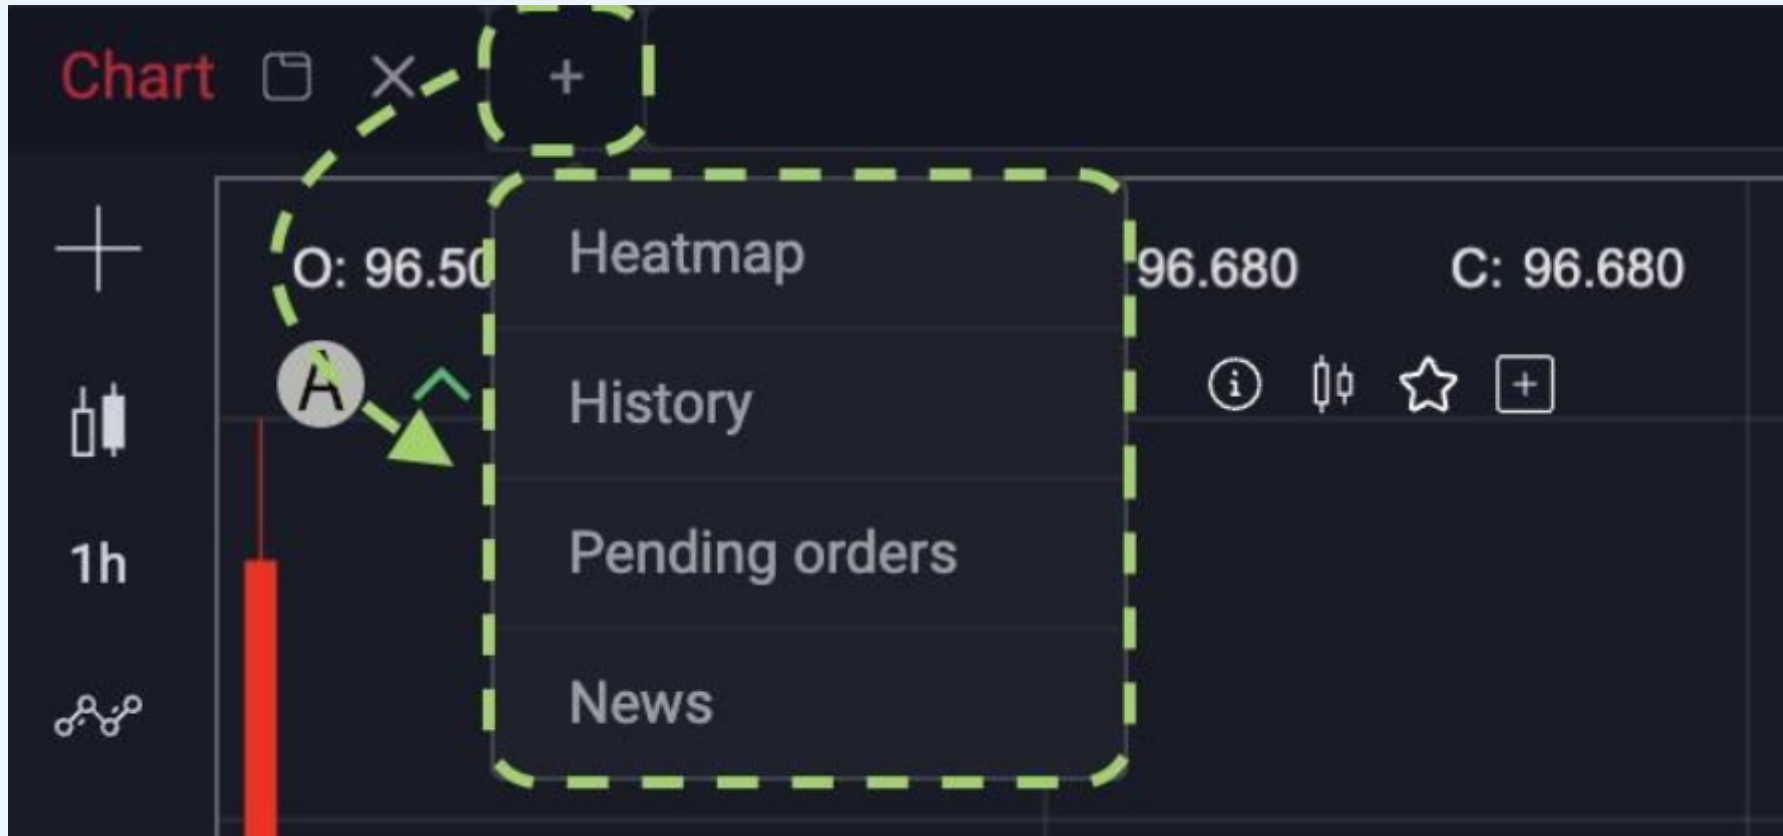

**Fibonacci drawing tools**

### 3.6 Additional Sections

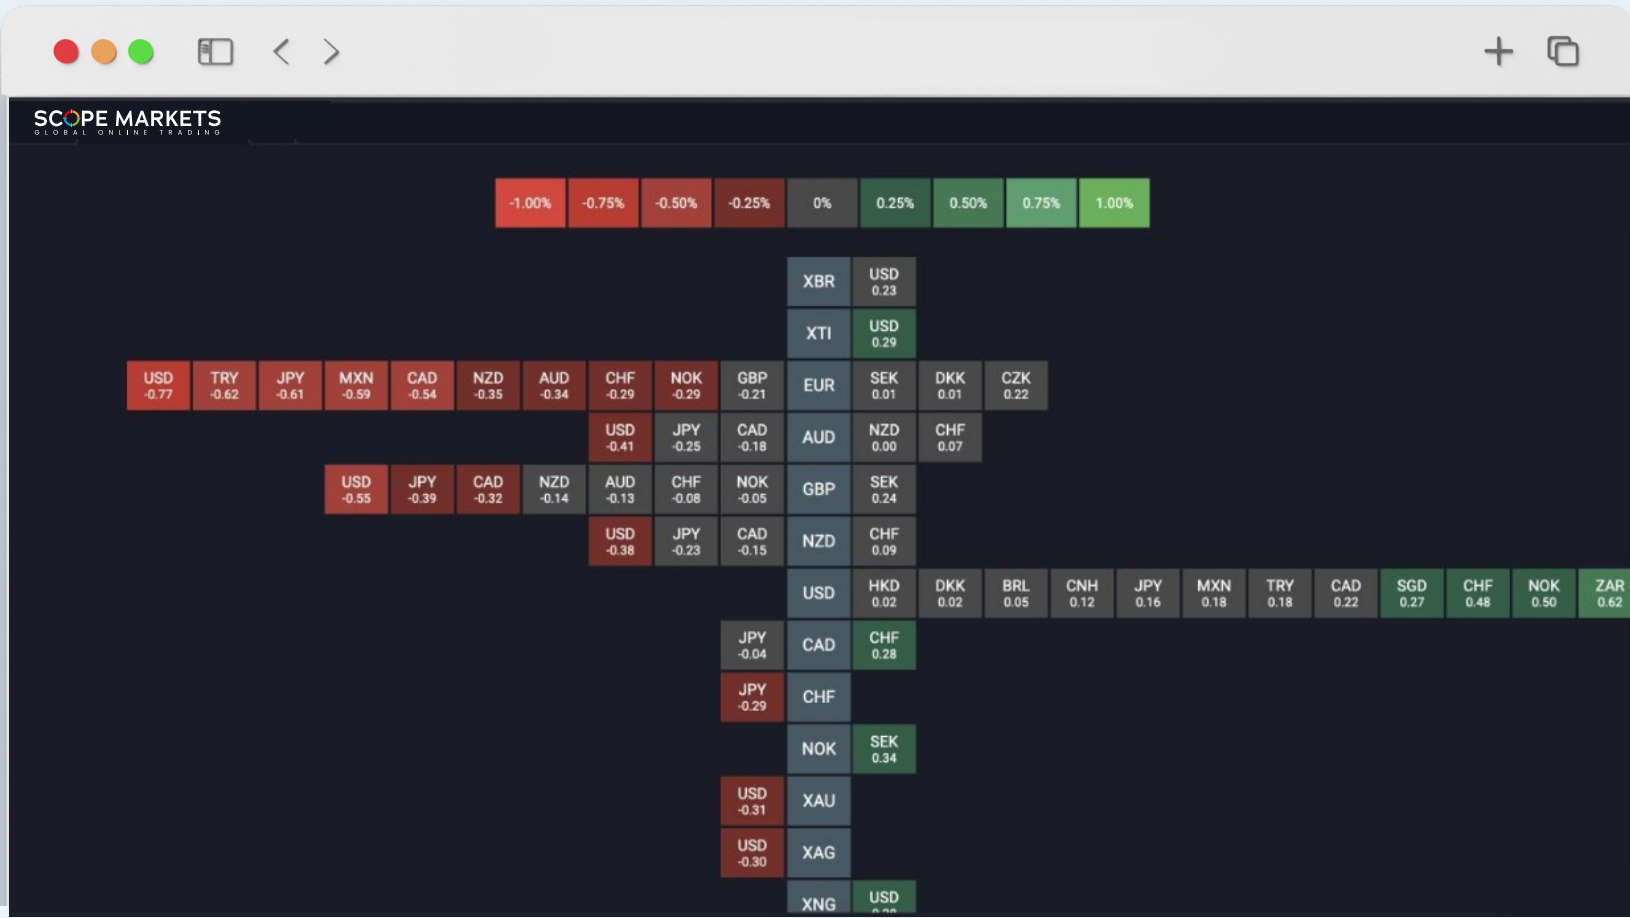

#### Pending Orders

By pressing the plus symbol, you can refer to additional sections within the workspace windows.

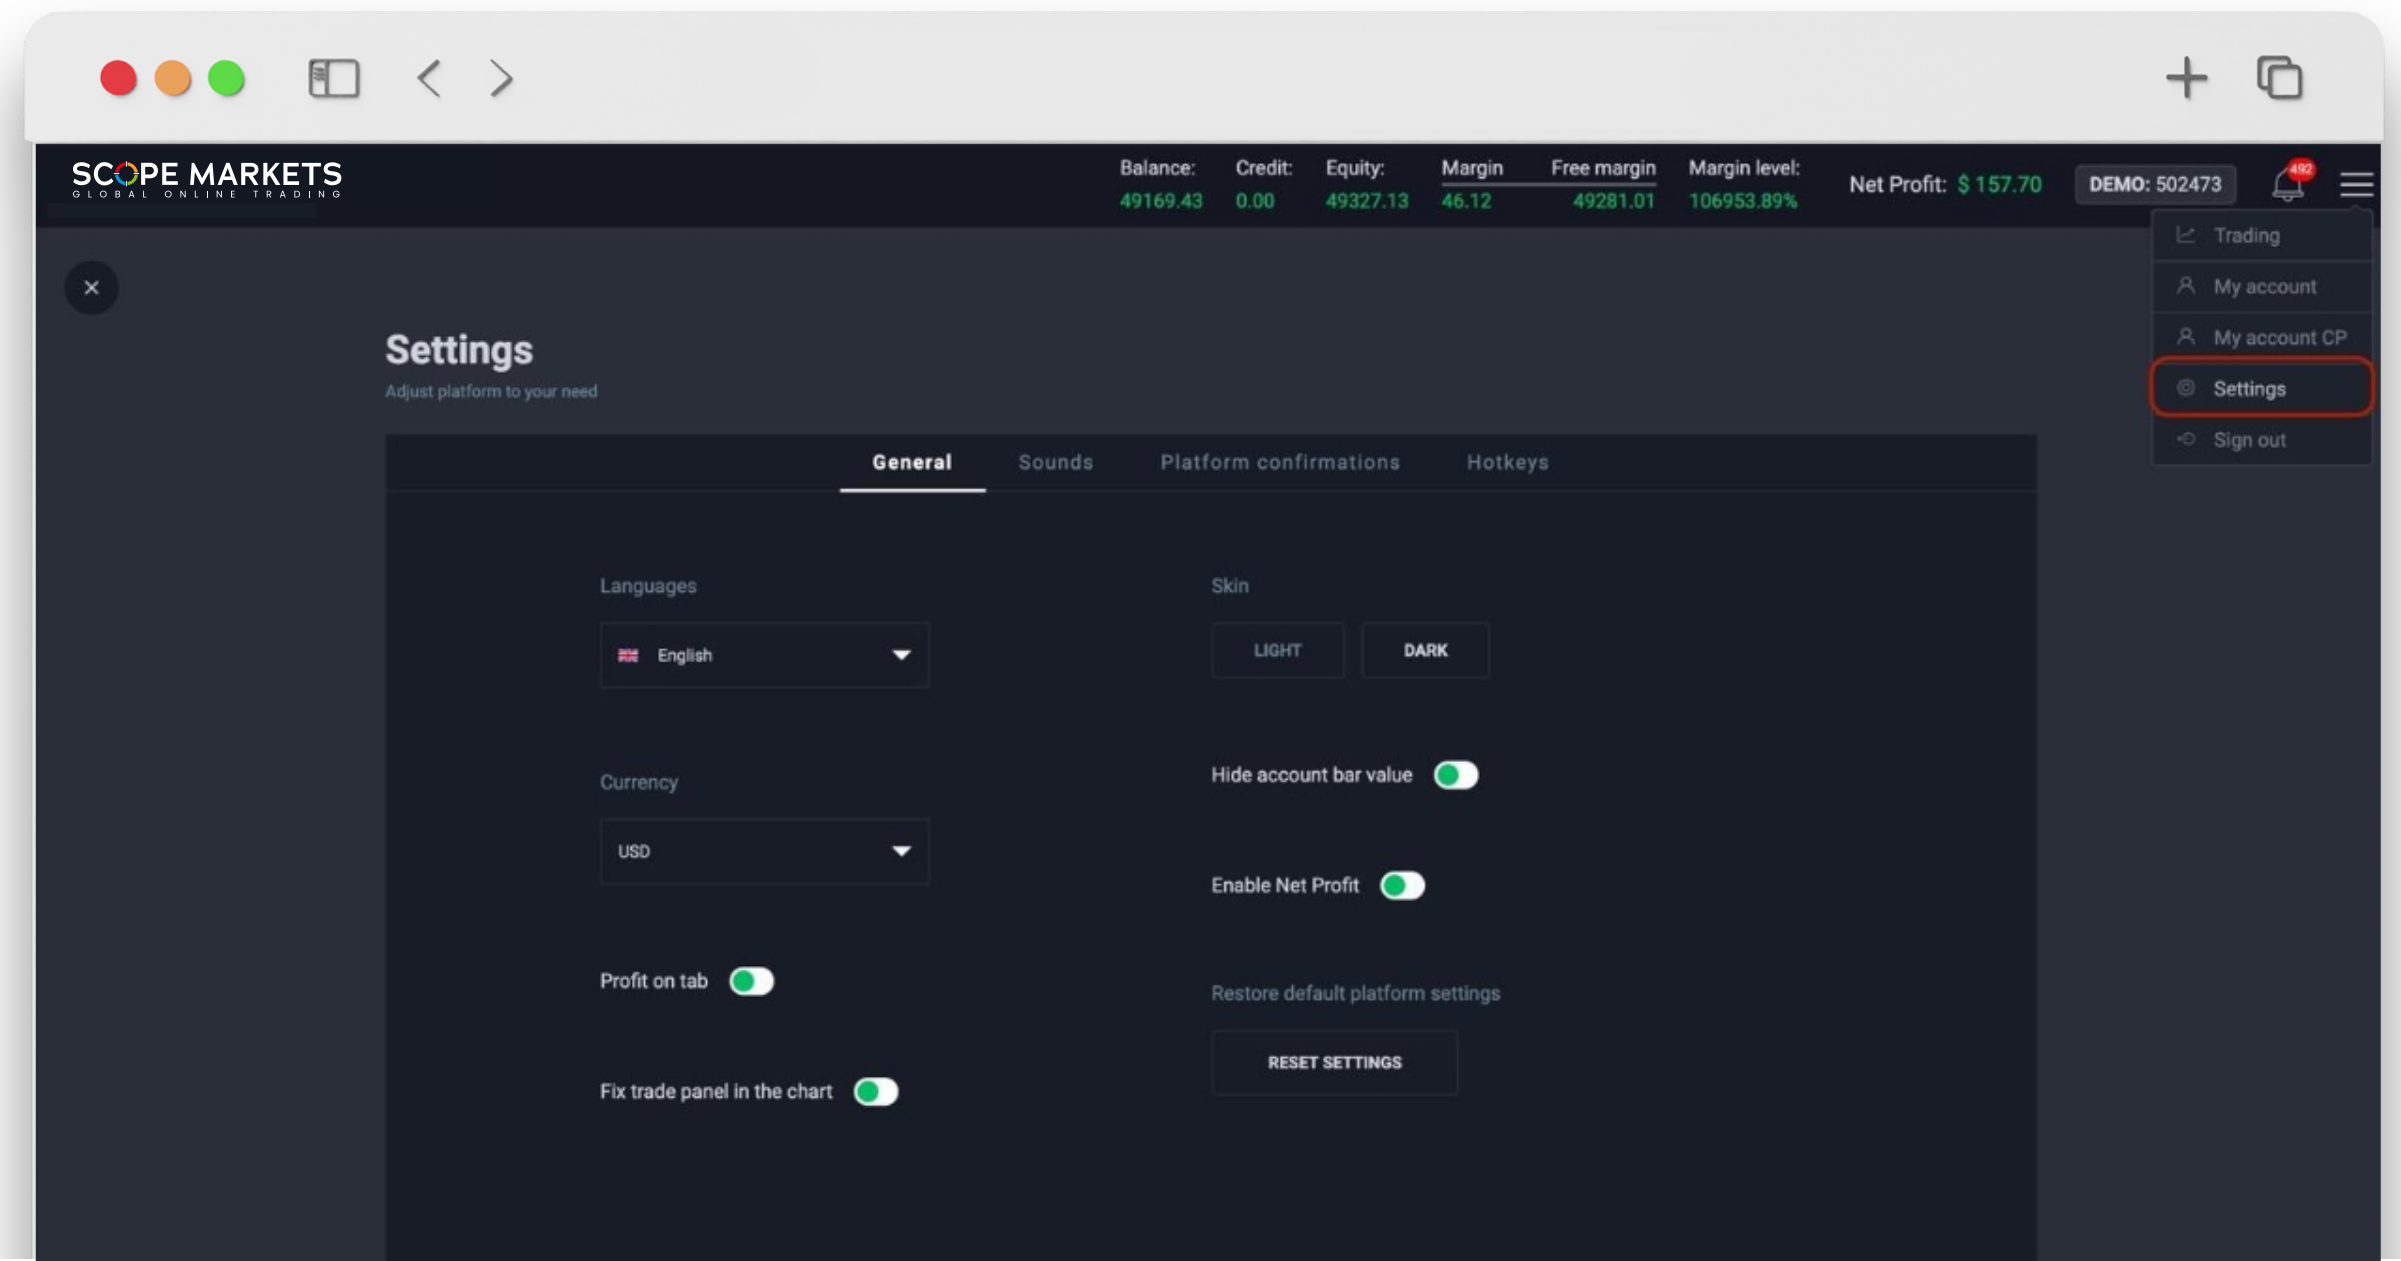

#### Heatmap

The Heatmap is a way to determine where there is liquidity in the market, and how liquidity-providers are currently behaving.

## 4. Settings

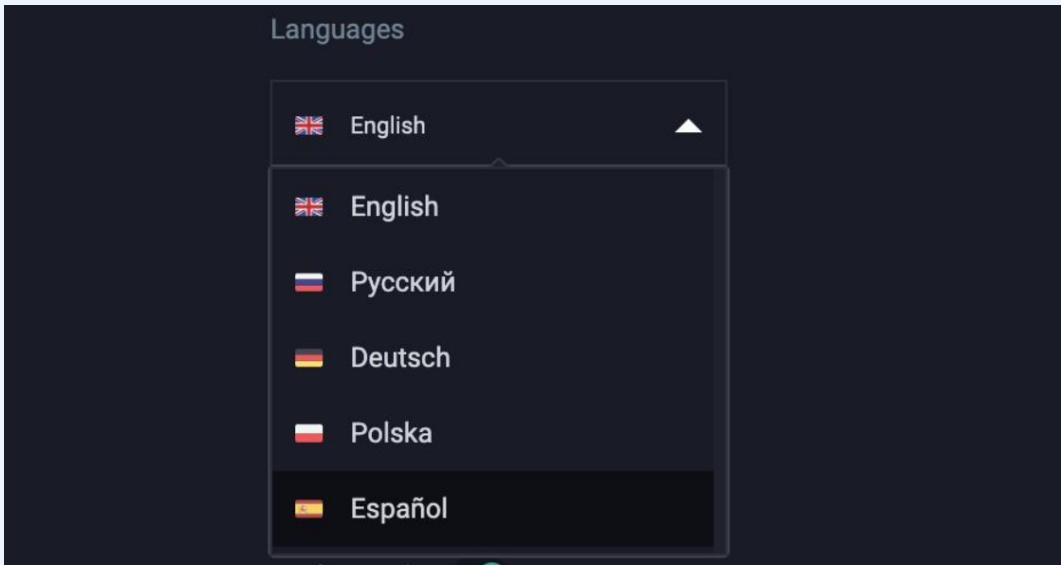

The **Settings** section can be found in the **top right corner** under the **three lines icon**.

### 4.1 General

In general settings, you can find:

- Language options

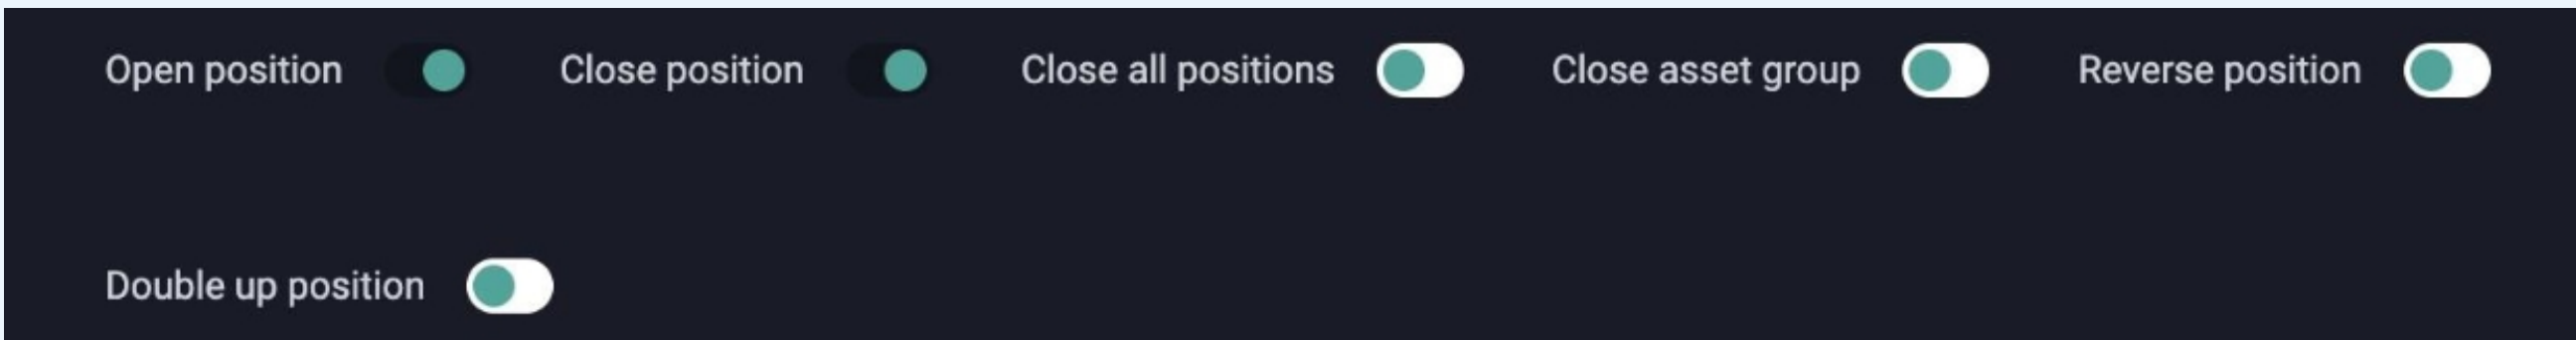

### 4.2 Sound Control Panel

### 4.3 Platform Configurations

Here is where you can adjust Platform configurations by enabling or disabling confirmation switches.

## 5. Sign Out

Users can sign out by clicking on the **'Sign out'** in the main menu.
